Acknowledgement

I avail this opportunity to express my heartfelt thanks to the Almighty God for pouring his love and blessings throughout and running all the things in right directions.

It is a great privilege for me to express my sincere gratitude to my guide Dr. Deepak Kumar Rahi, Assistant Professor, Department of Microbiology, Panjab University, for giving me the opportunity to work under his expert guidance. He has seen me through his endeavor with interest and indulgent guidance. His constant supervision and valuable advice were of great help and his authoritative knowledge has been a great source of motivation and inspiration. I also thank him for his considerable help in shaping of this manuscript.

I am most indebted to Professor Dr. Sanjeev kumar Soni, for giving me the opportunity to work under him. Thank you sir for your constant support and guidance which helped me realize my scientific goal.

I humbly express my deepest gratitude to Dr. Vijya Prabha Chairperson, Department of Microbiology for her keen interest and constant guidance throughout the tenure of this work.

I would like to thank my teachers Dr Geeta Shukla and Dr Prince Sharma Department of Microbiology for their valuable suggestions and cooperation.

I take this opportunity to sincere acknowledge the Department of Biotechnology (DBT), Government of India, New Delhi, for providing financial assistance which helped me to perform my work comfortably.

A special thanks to all the staff and Lab attendant of my Department Vijay sir, Yadav sir, Banvari, Ramesh sir, Anil, Kashmir sir, Ajay sir, Roopsingh sir, Bupinder sir, from Niper Institute, Cil Panjab University, IIP Institute.

I also take this opportunity to thank my labmates Vishal, Deepika, Aditi, Usha. My juniors Aruna, Madhulika, Premlata, Mohit, Harleen and my Friends Sonia, Harpreet, Deepali, Chetna, Neetika and Nancy for their encouragement, support and creating a cheerful environment around me.

My heartfelt thanks to my senior Sifjjeet Kaur for all her help and suggestions, her support and motivation throughout were of tremendous help.
I would like to express my thanks to my friends and colleagues Kiran, Praveen and Nicole for their constant encouragement and support. Kiran and Praveen always with me when ever I need them to fullfil my Ph.D work.

I also thank my dearest friend shobhana (Shobu) for help, constant support and her generous care. She was always beside me when I really needed a push and motivation. She always make me feel that I can do my work very effortlessly. With her I started my Ph.D where in the initial years she and me enjoyed all the happiest and sad moment which were occur between us. Thanks shobu for every thing.

I am obliged to all the staff members of Department for their cooperation during the period of my assignment.

I am extremely grateful to my parents specially my papa and mummy for their love, prayers, care , for educating and preparing me for my future, he was always beside me when I needed him the most. Also I express thanks to my sister Rani and brother Avinash for their sincere encouragement and inspiration throughout my research tenure and lifting me uphill during this phase of life. I owe everything to them.

On a personal note, I would like to thank my mother in- law, my sister-in-law Vibha, Deepika and brother-in-law Rohit and Prashant for their unconditional love, moral boosting and undying faith

Last but not the least, I owe the deepest gratitude to Kuldeep for being not only my husband but also my friend, providing me love and support in every phase of life. Without his constant encouragement and confidence in me, it would not have been possible for me to undertake and complete this task.

My acknowledgement would be incomplete if I do not thank Mr. Anil for his help in arranging my data and giving it shape.

Kanchan Lata Yadav
