ACKNOWLEDGEMENT

During my research investigation, I had faced challenging situations. Fortunately, I was not alone on this road, but accompanied by an extended team of experts, always willing to help, and motivate me. Working on the Ph.D. has been a wonderful and often overwhelming experience. It had included wide ranges of experiences sometimes it was grappling with the topic itself which had been the real learning experience, the other time grappling with how to write papers and proposals, give talks, work in a group and stay up until the birds start singing. But I managed to remain focused with the grace of Almighty.

At this moment of accomplishment of my research work, I express my utmost gratitude and regard to my guide, Dr. Dalwinder Singh, Associate Professor, Department of Physical Education, Panjab University, Chandigarh. This work would not have been possible without his guidance, support and encouragement. His guidance motivated me to overcome difficulties and made it a learning experience.
