

LIST OF TABLES

Table No.	Title	Page(s)
2.1	Number of items and sub-items for initial draft of test battery of cognitive skills.	85
2.2	Number of test items for cognitive skills in English, Mathematics, and EVS which were Rejected, Modified and Retained (Initial draft).	88
2.3	Distribution of items and sub-items, types of stimulus and response of each cognitive skills in English, Mathematics and EVS for grade -I.	90
2.4	Distribution of items and sub-items, types of stimulus and response of each cognitive skills in English, Mathematics and EVS for grade -II.	91
2.5	Distribution of items and sub-items, types of stimulus and response of each cognitive skills in English, Mathematics and EVS for grade -III.	92
2.6	Scoring procedures for different test items.	93
2.7	Item numbers in each dimension of parent behaviour in the Parental Involvement Scale.	95
2.8	Item numbers assessing different dimensions of Parental Involvement.	96
2.9	Social skills alongwith their operational definitions.	98
2.10	Reliability Co-efficient of social skills.	100
2.11	List of behaviour of teachers in the primary classroom.	103
2.12	List of behaviour of the student in the primary classroom.	104
3.1	Distribution of students sample school-wise.	125
3.2	Distribution of teachers sample.	126
3.3	Distribution of parents sample.	127
4.1	Association of qualifications of fathers with parental involvement.	138
4.2	Association of qualifications of mothers with parental involvement.	138
4.3	Association of types of families with parental involvement.	139
4.4	Association of economic status of families with parental involvement.	140
4.5	Association of working status of mothers with parental involvement.	141
4.6	Association of types of occupations of fathers with parental involvement.	141
4.7	Association of qualifications of fathers with cognitive skills of children.	143
4.8	Association of qualifications of mothers with cognitive skills of children.	143

Table No.	Title	Page(s)
4.9	Association of types of families with cognitive skills of children.	144
4.10	Association of economic status of families with cognitive skills of children.	145
4.11	Association of working status of mothers with cognitive skills of children.	145
4.12	Association of occupations of fathers with cognitive skills of children.	146
4.13	Association of qualifications of fathers with social skills of children.	147
4.14	Association of qualifications of mothers with social skills of children.	148
4.15	Association of types of families with social skills of children.	148
4.16	Association of economic status of families and social skills of children.	149
4.17	Association of working status of mothers with social skills of children.	150
4.18	Association of occupations of fathers with social skills of children.	150
4.19	t-ratios for difference in pooled mean scores of children belonging to HIP and LIP for cognitive skills in English.	152
4.20	t-ratios for difference in pooled mean scores of children belonging to HIP and LIP for cognitive skills in Mathematics.	153
4.21	t-ratios for difference in pooled mean scores of children belonging to HIP and LIP for cognitive skills in Environmental Studies.	154
4.22	t-ratios for difference in mean scores of children belonging to HIP and LIP for individual cognitive skills in English.	156
4.23	t-ratios for difference in mean scores of children belonging to HIP and LIP for individual cognitive skills in Mathematics.	159
4.24	t-ratios for difference in mean scores of children belonging to HIP and LIP for individual cognitive skills in Environmental Studies.	163
4.25	Subject-wise category ratios for millage matrix of pooled observations of classroom interactions (grades-I, II, & III).	167
4.26	Grade-wise category ratios for millage matrix of pooled observations of classroom interactions (Language, Mathematics, Environmental Studies).	172
4.27	Identification of Democratic/Participative and Authoritarian/Non-Participative classes for Language class.	180
4.28	Identification of Democratic/Participative and Authoritarian/Non-Participative classes for Mathematics.	181

Table No.	Title	Page(s)
4.29	Identification of Democratic/Participative and Authoritarian/Non-Participative classes for Environmental Studies.	182
4.30	Identification of class climate as Democratic/Participative, Average, Authoritarian/Non-Participative.	183
4.31	Summary of analysis of variance on global scores of cognitive skills (Language) in relation to parental involvement and class climate.	186
4.32	t-ratios for different combination pairs for the interaction of parental involvement and class climate for cognitive skills in English.	188
4.33	Summary of analysis of variance on global scores of cognitive skills (Mathematics) in relation to parental involvement and class climate.	189
4.34	Summary of analysis of variance on global scores of cognitive skills (Environmental Studies) in relation to parental involvement and class climate.	190
4.35	Summary of analysis of variance on individual cognitive skills in English.	193
4.36	t-ratios for different combination pairs for the interaction of parental involvement and class climate on cognitive skill in use of functional grammar.	197
4.37	t-ratios for different combination pairs for the interaction of parental involvement and class climate on cognitive skill in self-learning.	199
4.38	Summary of analysis of variance on Individual cognitive skills in Mathematics.	202
4.39	Summary of analysis of variance on Individual cognitive skills in Environmental Studies.	206
4.40	Summary of analysis of variance on global scores of social skills in relation to parental involvement and class climate.	211
4.41	Summary of analysis of variance on scores of individual social skills in relation to parental involvement and class climate.	214
4.42	t-ratio for different combination pairs for the interaction of parental involvement and class climate on social skill in courteousness.	218
