ACKNOWLEDGEMENTS

It has been a great pleasure and privilege for the investigator to conduct the present arduous, laborious, and time consuming but precious and challenging research under the supervision of Dr. (Mrs.) B.K. Saini, M.A. (Eng.), B.T. (Pb.), M.A. (Edu.) and Ph.D. (Edu.), (Berkeley, California), Reader, Department of Education, Panjab University, Chandigarh (India) and an eminent educationist. The investigator takes this opportunity to express his sincere and deep sense of gratitude to the Supervisor for her excellent spirit, gracious, remarkably inspiring, constant encouragement, and efficient guidance from the beginning to the completion of this research (15.1.1979 to June 15, 1983). Indeed, without her seasoned supervision this work might not have shaped out so well.

The investigator is also indebted to Professor Dr.O.P. Bagai, Department of Statistics, Panjab University, Chandigarh for his proper guidance regarding statistical techniques used in this research.

The investigator also expresses his thanks to his friend, Mr. Hoshang Tabakhean in the city of Isfahan for his sincere cooperation and guidance during data collection in some rural areas.

The investigator is also grateful and thankful to many others who helped him directly or indirectly in this research and who remain unnamed.

H.A. Touliat Kashani
