<tbody>
<tr>
<td>1.</td>
<td>Analysis of variance for job stress variable among Physical Education teachers working in government, public and private schools.</td>
<td>48</td>
</tr>
<tr>
<td>2.</td>
<td>Ordered weight means and difference between means for job stress in one way analysis of variance.</td>
<td>49</td>
</tr>
<tr>
<td>3.</td>
<td>Analysis of variance for job satisfaction variable among Physical Education teachers working in government, public and private schools.</td>
<td>51</td>
</tr>
<tr>
<td>4.</td>
<td>Ordered weight means and difference between means for job satisfaction in one way analysis of variance.</td>
<td>51</td>
</tr>
<tr>
<td>5.</td>
<td>Analysis of variance for academic and general adjustment variable among Physical Education teachers working in government, public and private schools.</td>
<td>54</td>
</tr>
<tr>
<td>6.</td>
<td>Analysis of variance for socio-psycho-physical adjustment variable among Physical Education teachers working in government, public and private schools.</td>
<td>55</td>
</tr>
<tr>
<td>7.</td>
<td>Ordered weight means and difference between means for socio-psycho-physical adjustment in one way analysis of variance.</td>
<td>55</td>
</tr>
<tr>
<td>8.</td>
<td>Analysis of variance for professional adjustment variable among Physical Education teachers working in government, public and private schools.</td>
<td>58</td>
</tr>

</table>
9. Ordered weight means and difference between means for professional adjustment in one way analysis of variance. 59
10. Analysis of variance for personal life adjustment variable among Physical Education teachers working in government, public and private schools. 61
11. Ordered weight means and difference between means for personal life adjustment in one way analysis of variance. 62
12. Analysis of variance for functional adjustment variable among Physical Education teachers working in government, public and private schools. 64
13. Ordered weight means and difference between means for functional adjustment in one way analysis of variance. 64
14. Analysis of variance for overall adjustment variable among Physical Education teachers working in government, public and private schools. 65
15. Ordered weight means and difference between means for overall adjustment in one way analysis of variance. 67
16. Analysis of variance for job stress variable among male Physical Education teachers working in government, public and private schools. 70
17. Ordered weight means and difference between means for job stress (males) in one way analysis of variance. 70
18. Analysis of variance for job satisfaction variable among male Physical Education teachers working in government, public and private schools. 71
19. Ordered weight means and difference between means for job satisfaction (males) in one way analysis of variance. 73

20. Analysis of variance for academic and general adjustment variable among male Physical Education teachers working in government, public and private schools. 74

21. Analysis of variance for socio-psycho-physical adjustment variable among male Physical Education teachers working in government, public and private schools. 76

22. Ordered weight means and difference between means for socio-psycho-adjustment (males) in one way analysis of variance. 76

23. Analysis of variance for professional adjustment variable among male Physical Education teachers working in government, public and private schools. 77

24. Ordered weight means and difference between means for professional adjustment (males) in one way analysis of variance. 79

25. Analysis of variance for personal life adjustment variable among male Physical Education teachers working in government, public and private schools. 81

26. Analysis of variance for functional adjustment variable among male Physical Education teachers working in government, public and private schools. 81

27. Ordered weight means and difference between means for functional adjustment (males) in one way analysis of variance. 82
28. Analysis of variance for overall adjustment variable among male Physical Education teachers working in government, public and private schools. 83
29. Ordered weight means and difference between means for overall adjustment (males) in one way analysis of variance. 85
30. Analysis of variance for job stress variable among female Physical Education teachers working in government, public and private schools. 88
31. Ordered weight means and difference between means for job stress (females) in one way analysis of variance. 89
32. Analysis of variance for job satisfaction variable among female Physical Education teachers working in government, public and private schools. 91
33. Ordered weight means and difference between means for job satisfaction (females) in one way analysis of variance. 91
34. Analysis of variance for academic and general adjustment variable among female Physical Education teachers working in government, public and private schools. 82
35. Analysis of variance for socio-psycho-physical adjustment variable among female Physical Education teachers working in government, public and private schools. 94
36. Analysis of variance for professional adjustment variable among female Physical Education teachers working in government, public and private schools. 95
37. Analysis of variance for personal life adjustment variable among female Physical Education teachers working in government, public and private schools. 95
38. Analysis of variance for functional adjustment variable among female Physical Education teachers working in government, public and private schools. 96
39. Ordered weight means and difference between means for functional adjustment (females) in one way analysis of variance. 97
40. Analysis of variance for overall adjustment variable among female Physical Education teachers working in government, public and private schools. 99
41. Ordered weight means and difference between means for overall adjustment (females) in one way analysis of variance. 99
42. Mean difference between the variables of male and female Physical Education teachers working in government schools. 103
43. Mean difference between the variables of male and female Physical Education teachers working in public schools. 104
44. Mean difference between the variables of male and female Physical Education teachers working in private schools. 106
45. Relationship of age with other variables of Physical Education teachers (Total sample). 107
46. Relationship of service length with other variables of Physical Education teachers (Total sample).
47. Relationship of job stress with job satisfaction and adjustment variables of Physical Education teachers (Total sample).
48. Relationship of job satisfaction with adjustment variables of Physical Education teachers (Total sample).
49. Relationship of age with other variables of male Physical Education teachers.
50. Relationship of service length with other variables of male Physical Education teachers.
51. Relationship of job stress with job satisfaction and adjustment variables of male Physical Education teachers.
52. Relationship of job satisfaction and adjustment variables of male Physical Education teachers.
53. Relationship of age with other variables of female Physical Education teachers.
54. Relationship of service length with other variables of female Physical Education teachers.
55. Relationship of job satisfaction with job stress and adjustment variables of female Physical Education teachers.
56. Relationship of job stress with adjustment variables of female Physical Education teachers.
