First of all, I bow my head and express gratitude with all reverence and devotion to the “Almighty” for showering His blessings. He is the one who has given me a chance to acknowledge whole-heartedly all those who have provided me utmost support all through my thesis research.

I wish to express my heartfelt regards and deep sense of gratitude to my research guide, Dr B M Khan, Scientist-G and HOD, Division of Plant Tissue Culture, NCL for his gracious initiation, inspiring guidance, liberal attitude, valuable suggestions, never ending affection and unstrained encouragement during the course of investigation and preparation of the manuscript.

I would like to specially thank Dr S K Rawal (Former HOD, Division of PTC, NCL) for his critical suggestions and evaluations of my work periodically. His words of wisdom were always helpful for me to provide impetus to my work.

With stupendous ecstasy, I express a deep sense of indebtedness and gratitude to Dr David Nelson, University of Tennessee, USA for classifying and assigning names to LIC4H proteins.

I wish my sincere thanks to all the scientists of Division of PTC and Biochemical Sciences, especially Dr D C Agrawal, Dr U J Mehta and Dr S V Kendurkar and for allowing me to use their lab facility as and when required. Dr D K Kulkarni finds a special mention here for teaching me to take free hand sections. I am highly indebted to Late Dr M I Khan and his family for their support extended to me at the time of need. I also like to take this opportunity to thank all my teachers, who have taught me at various levels right from my childhood.

I am elated with delight to avail this wonderful opportunity to record my gratitude to my lab seniors Dr Sucheta, Dr Sushim, Dr Sameer, Dr Noor, Dr Arun, Dr Abhilash and Dr (Mrs) Pallavi for their cooperation and help. I am highly indebted to my lab colleagues Prashant, Rishi, Krunal, Somesh, Parth, Neha, Kannan, Poonam, Uma, Ruby, Santosh Jadhav and Shakeel for their support and cordial atmosphere in lab. My special words of thanks should also go to my trainees Shruti and Gayatri for their assistance during critical phase of my work. I would also like to thank all the trainees in the lab, who have worked or are working in the lab, for their politeness and respect.
Some persons come into one’s life and again they make a bye. But, its never bye for the nice bond of friends Ramesh, Prabhash, Ravi, Nishant, Asad, Shadab, Srikant, Prasad, Sajid, Avinash, Ansay, Shabab, Dr Atul, Dr Feroz, Dr Anil, Dr Nagraj, Dr JP, Dr Shashi, Sathish, Vaibhav, Shiv bhaiya, Trupti, Urvashi, Gyan, Yashwant, Raju, Dr Prasad, Dr Bhuvan, Poonam and Rita whose encouragement and best wishes provided a homely environment during my stay at NCL. I also wish to thank all my school level, B.Sc. and M.Sc. friends, most of them although not with me in Pune, were always with me with their well wishes.

I express my appreciation to all the laboratory staff members of NCL in general and Mr Surya Prasad and Mr Jagtap in particular, who took immense pain in maintaining the electrical equipments and managing the green house facility, respectively.

The financial assistance provided by Council of Scientific and Industrial Research, Government of India is gratefully acknowledged. I also thank Dr Saurav Pal, Director, NCL and Dr S Sivaram (Former Director, NCL) for giving me a chance to carry out my work at NCL and letting me use the facilities of NCL.

It would be like a drop in the ocean of words that can never reach their mark for my lab-mate and wife, Sumita who gave me infinite love and courage to go for this achievement. I am sure we will always be each other’s strength through the ups and downs of life yet to come. I am equally grateful to my mother and father-in-law for their blessings and support in several ways. I cannot forget to mention my only saali sahiba, Namita, who despite her business, used to make our weekends nice by visiting us.

Words are small trophies to express my deep sense of indebtedness and affection to my parents, sister and brothers, my family members and relatives for their blessings, encouragement and inspiration, which helped me in building my educational career.

Last but not the least, thanks to all beloved and respected people around me who directly and indirectly helped me during my PhD program and whose names could not be mentioned here.

December, 2011
