5.12 Classification of B.Ed. teacher educators on the basis of norms of attitude towards teaching scale.  

5.13 Values of mean, SD and t-ratio to locate differences in the job satisfaction of three groups of teacher educators.

5.14 Values of mean, SD and t-ratio to locate differences in the professional and educational interests of three groups of teacher educators.

5.15 Values of mean, SD and t-ratio to locate differences in the creativity of three groups of teacher educators.

5.16 Values of mean, SD and t-ratio to locate differences in the attitude towards teaching of three groups of teacher educators.

5.17 Values of mean, SD and t-ratio to locate differences in the job satisfaction of female and male B.Ed. teacher educators.

5.18 Values of mean, SD and t-ratio to locate differences in the job satisfaction of female and male ETT teacher educators.

5.19 Values of mean, SD and t-ratio to locate differences in the job satisfaction of female and male NTT teacher educators.

5.20 Values of mean, SD and t-ratio to locate differences in the professional and educational interests of female and male B.Ed. teacher educators.

5.21 Values of mean, SD and t-ratio to locate differences in the professional and educational interests of female and male ETT teacher educators.

5.22 Values of mean, SD and t-ratio to locate differences in the professional and educational interests of female and male NTT teacher educators.

5.23 Values of mean, SD and t-ratio to locate differences in the creativity of female and male B.Ed. teacher educators.
Values of mean, SD and t-ratio to locate differences in creativity of female and male ETT teacher educators.

Values of mean, SD and t-ratio to locate differences in the creativity of female and male NTT teacher educators.

Values of mean, SD and t-ratio to locate differences in the attitude towards teaching of female and male B.Ed. teacher educators.

Values of mean, SD and t-ratio to locate differences in the attitude towards teaching of female and male ETT teacher educators.

Values of mean, SD and t-ratio to locate differences in the attitude towards teaching of female and male NTT teacher educators.

Values of mean, SD and t-ratio to locate differences in the job satisfaction of B.Ed. teacher educators of different age groups.

Values of mean, SD and t-ratio to locate differences in the job satisfaction of ETT teacher educators of different age groups.

Values of mean, SD and t-ratio to locate differences in the job satisfaction of NTT teacher educators of different age groups.

Values of mean, SD and t-ratio to locate differences in the professional and educational interests of B.Ed. teacher educators of different age groups.

Values of mean, SD and t-ratio to locate differences in the professional and educational interests of ETT teacher educators of different age groups.

Values of mean, SD and t-ratio to locate differences in the professional and educational interests of NTT teacher educators of different age groups.
5.35 Values of mean, SD and t-ratio to locate differences in the creativity of B.Ed. teacher educators of different age groups.

5.36 Values of mean, SD and t-ratio to locate differences in the creativity of ETT teacher educators of different age groups.

5.37 Values of mean, SD and t-ratio to locate differences in the creativity of NTT teacher educators of different age groups.

5.38 Values of mean, SD and t-ratio to locate differences in the attitude towards teaching of B.Ed. teacher educators of different age groups.

5.39 Values of mean, SD and t-ratio to locate differences in the attitude towards teaching of ETT teacher educators of different age groups.

5.40 Values of mean, SD and t-ratio to locate differences in the attitude towards teaching of NTT teacher educators of different age groups.

5.41 Values of mean, SD and t-ratio to locate differences in the job satisfaction of teacher educators at B.Ed. level teaching in government and private institutions.

5.42 Values of mean, SD and t-ratio to locate differences in the professional and educational interests of teacher educators at B.Ed. level teaching in government and private institutions.

5.43 Values of mean, SD and t-ratio to locate differences in the creativity of teacher educators at B.Ed. level teaching in government and private institutions.

5.44 Values of mean, SD and t-ratio to locate differences in the attitude towards teaching of teacher educators at B.Ed. level teaching in government and private institutions.
