ACKNOWLEDGEMENTS

I would like to express my sincere gratitude and thanks to my supervisor, Prof. (Dr.) Renu Vig. This work would not have been possible without her steadfast support. I would like to thank her for scientific guidance, insightful comments, and exemplary leadership. Her optimistic attitude and unwavering encouragement kept my spirits up in every moment during the work.

I would also like to thank Dr. Naveen Aggarwal for his continuous technical suggestions which helped me to improve the quality of results obtained, throughout the work.

This work was not possible without unflinching and unhindered support from my family.

Finally, I thank my friend Mr. Makhan Singh for providing the necessary mental and social support all the times throughout the thesis.
