ACKNOWLEDGEMENT

With all humility and sincerity I bow before the almighty for his benevolence and blessings which gave me strength and courage to accomplish this feat.

Time has provided me the cherished opportunity to express my deep sense of gratitude to my erudite and revered guide Dr. R.K. Kohli, Professor, Department of Botany, Panjab University, Chandigarh for providing me the opportunity to work under his kind supervision. His valuable suggestions, outstanding knowledge of the subject, constructive criticism, enthusiasm and thought provoking discussions enabled me to complete this stupendous task. His ever helping nature and immaculate guidance has made this investigation to take the shape of this thesis.

I feel lacking in words to express my profound sense of obeisance to my guide Dr. Daizy R. Batish, Reader, Department of Botany, Panjab University, Chandigarh for her impeccable guidance, unwavering support, active participation and helpful suggestions at various stages of present work. Her outstanding knowledge and clarity of concepts, inspiring nature and deep involvement in the study right from inception till the final conception had a direct imprint on the execution of this research work. Her unbiased help cleared many doubts that could have been obstacles. I owe deep gratitude to her.

I am highly obliged to Dr. M.L. Sharma, Professor and Chairman, Department of Botany, Panjab University, Chandigarh for providing me with necessary and best available facilities to pursue my research work.

My sincere thanks are due to Dr. Harminder Pal Singh, Lecturer, Center for Environment and Vocational Studies, Panjab University, Chandigarh for his consistent help, support, co-operation and constructive criticism. His efforts have helped in the materialization of this manuscript with least discrepancies.
I gratefully acknowledge the help rendered by Dr. Bikram Singh, Scientific Officer, Natural Plant Product Division, Institute of Himalayan Bioresource Technology, Palampur, H.P. for his guidance and facilities he extended to me to analyse oil samples. Sincere thanks are due to Mr. M.L. Sharma, Scientific Officer, Central Instrumentation Laboratory, Panjab University, Chandigarh for providing facilities for Scanning Electron Microscopy.

It’s my pleasure to acknowledge thanks to all my well wishers, friends and lab mates who helped encouraged and supported me in the whole tenure of my Ph.D programme. My special thanks to Mr. Lallan Prasad, who has been very supportive throughout my work.

Above all, I owe immensely to my parents, in-laws and my husband Mr. Hitesh Arora whose love, affectionate blessings and undaunting support was a source of constant inspiration during present endeavour. I owe them all what I am today.

Lastly, I am thankful to Council of Scientific and Industrial Research (CSIR), New Delhi for award of Fellowship (as JRF & SRF) for the whole tenure.

(Nidhi Setia)
