Annexure-I

Ethical Justification

Mohan Day Oswal Cancer Treatment & Research Foundation
(A CHARITABLE INSTITUTION)
G.T. ROAD, SHERPUR BYE PASS, LUDHIANA-141 009.
E-mail : mdoht@satyam.net.in  FAX : 0161-2672100,264410-11

REF.NO.MDOCTRF
Dated...

APPROVAL OF INSTITUTIONAL ETHICAL COMMITTEE

Subject: Ethical clearance for the human samples required for the study entitled "A Study on the Promoter Hypermethylation of Tumor Suppressor Genes in Cervical Cancer".

The study requires biopsy and blood samples from patients with cervical cancer. The cervical punch biopsy is done routinely for the confirmation and diagnosis in all patients for cervical cancer. This would be done after obtaining the consent of the patients. Venous blood sampling is semi-invasive procedure being done for routine investigation in patients. 5 ml of venous blood will be drawn after the explanation of procedure to the patients and informed consent will be obtained.

Dr. Satish Jain
Chairman

Ethical Committee Members

Dr. Veena Jain
MD, DLS, FMCH, HOG
Sr. Consultant Dept. Gynecology Oncology & Obstetrics

Dr. Yogesh Arora MD
Sr. Consultant Dept. Medicine & Oncology
