Acknowledgements

It is my pleasure to acknowledge the support and help, received from different quarters for the completion of this thesis. First of all, I bow my head in front of the Almighty who bestowed me with an opportunity to take up this project and provided me with the courage to complete this research project despite of many hardships.

It is a great pleasure for me to express my heartfelt gratitude to my mentors, Dr. Jagdeep Kaur and Dr. Neena Capalash, for their constant support, enthusiasm and guidance. They would always remain special to me.

Words would be less to express my deep and sincere gratitude to my supervisor, Dr. Jagdeep Kaur, Associate Professor and Chairperson, Department of Biotechnology, Panjab University, Chandigarh. Her wide knowledge, logical way of thinking, expert advice and scientific inputs have been of great value for me. Her understanding, encouragement and personal guidance have provided a good basis not only for the present thesis but also for my future. Knowing her at a personal level, was really a learning experience. I was really very lucky to have her as my supervisor. I learnt from her that if one has the will to succeed nothing is unachievable and one can succeed against all odds. She would always be a source of inspiration for me. I thank her for the confidence she always bestowed upon me.

I am deeply grateful to my co-supervisor, Dr. Neena Capalash, Assistant Professor, Department of Biotechnology, Panjab University, Chandigarh for her detailed and constructive comments, and for her constant support throughout this work. She taught me that we should be focussed in our approach and whatever we do, we should give our best. Besides her scientific advice, I greatly appreciate her immense support and cooperation. I learnt a lot from her.

I wish to express my warm and sincere thanks to Dr. Veena Jain, Head, Department of Gynaecology, Mohan Dail Oswal Cancer Treatment and Research Foundation, Ludhiana for providing invaluable help in form of the samples of patients and healthy females after obtaining the necessary ethical clearance. I also thank Dr. Alka Seligal and Dr. Rajesh Vasishtha for their invaluable suggestions.

I express my sincere thanks to Professor R.C. Sobti, Vice Chancellor, Panjab University, Chandigarh for always being kind and supportive. My sincere thanks are also due to Prof. R. Tewari for his kind support and help. I would also like to thank Dr. Kashmir Singh and Dr. Ranvir Singh for constantly motivating me. I am also thankful to Dr. Neeraj Khullar and Dr. Jagtar Singh for being considerate towards me.
I also express my thanks to Dr. Anju Shrivastava, Associate Professor, Department of Zoology, Delhi University, and Dr. Ajay Kumar, Research Associate, Indian Institute of Integrative Medicine, Jammu for providing help in the cell culture studies. I extend my thanks to Dr. Suresh Sharma, Department of Statistics, Panjab University, Chandigarh for his help in the statistical analysis.

I express my thanks to the non-teaching staff of the Deptt of Biotechnology, Panjab University, which includes, Raj Ma’m, Surinderji, Pritamji, Manoj, Rakesh, Shashi, Ram Chanderji, Sanju and Mantaji for their constant support.

I extend special thanks to my dearest friend and labmate Mohsen for always being there for me. He has always been very supportive and caring. I wish to extend warm thanks to my laboratory members, including, Pushpender Sir, Rajvinder Sir, Jyoti Ma’m, Gurjury, Monika Ma’m, Shelly Ma’m, Gurpreet, Deepender, Gaurav, Rakesh, Arbind, Vishal, Manisha, Stuti and Gurdam especially Arbind, Gaurav, Vishal and Manisha for their help and support. I also extend my thanks to Ajay, Neetu, Nisha, Aman and Sudha for their support.

This work would not have been possible without the blessings, care, affection, sacrifices and constant encouragement of my parents. The unconditional love and support of my brothers, Amitabh Bhaiya and Ajit, sisters, Ambika Didi and Anu, Bhabhi, Jiju and Rahulji was a big help during the whole research work. My nephew Mohitt and niece Aadya were one of the reasons for bringing smile on my face during the times of distress.

The blessings and affection of my parents-in-law were of immense help. My brother-in-law Vimal deserves a special thanks for his genuine concerns and support. The moral support provided by my sister-in-law Monika was also a big help. I

Last but not the least, I would like to express my special thanks to my wife, Meenakshi, for her unconditional love, endless encouragement, patience, sacrifices and support, without which this work would not have been completed.

Abhimanyu Kumar Jha
