CONTENTS

CHAPTER

1. INTRODUCTION
   Objectives and hypotheses

II. A BRIEF REVIEW OF RELATED LITERATURE
   Loneliness and its personality correlates.
   Anxiety and its personality correlates.
   Aggression and its personality correlates.
   Loneliness and creativity.
   Anxiety and creativity.
   Aggression and creativity.
   Loneliness and humour.
   Anxiety and humour.
   Aggression and humour.
   Creativity and personality.
   Humour and personality.
   Creativity and humour.
   Loneliness and anxiety.
   Loneliness and aggression.
   Anxiety and aggression.

Intelligence in relation to personality, creativity, humour, loneliness, anxiety and aggression.
III.  THEORETICAL ORIENTATION 79-112
Humour
Loneliness
Anxiety
Aggression

IV.  METHOD 113-128
Sample
Tests
Reliability Coefficients
Procedure
Analyses

V.  RESULTS AND DISCUSSION 129-183
Frequency distributions.
Intercorrelations
Principal components factor analysis
Stepwise multiple regression analysis
One way analysis of variance
Summary 184-187
References 188-215
14. Principal component varimax rotated factor loadings for the total sample.

15. Stepwise multiple correlations of personality, creativity, humour and intelligence (independent variables) with loneliness (dependent variable).

16. Stepwise multiple correlations of personality, creativity, humour and intelligence (independent variables) with anxiety (dependent variable).

17. Stepwise multiple correlations of personality, creativity, humour and intelligence (independent variables) with assault (dependent variable).

18. Stepwise multiple correlations of personality, creativity, humour and intelligence (independent variables) with indirect aggression (dependent variable).

19. Stepwise multiple correlations of personality, creativity, humour and intelligence (independent variables) with irritability (dependent variable).

20. Stepwise multiple correlations of personality, creativity, humour and intelligence (independent variables) with negativism (dependent variable).

21. Stepwise multiple correlations of personality, creativity, humour and intelligence (independent variables) with resentment (dependent variable).
22. Stepwise multiple correlations of personality, creativity, humour and intelligence (independent variables) with suspicion (dependent variable).

23. Stepwise multiple correlation of personality, creativity, humour and intelligence (independent variable) with verbal aggression (dependent variable).

24. Significant F-ratio's for the independent variables on personality, creativity and humour.

25. Means and t-ratio's on the variables which yielded significant F-ratio's.
