

Acknowledgement

This thesis is the outcome of my journey in obtaining my Ph.D. The journey for thesis has been kept on track and been seen through to completion with the support and encouragement of numerous people including my supervisors, well wishers, my friends, and colleagues at various institutions. At the end of my thesis, it is a pleasant task to thank all those people who made this thesis possible and an unforgettable experience for me.

Foremost, I would like to express my sincere gratitude to my Supervisor Prof. R C Sobti, Panjab University, for the continuous support of my Ph.D. study and research, for his patience, motivation, enthusiasm, and immense knowledge. His guidance helped me in all the time of research and writing of this thesis.

I am also extremely indebted to my other supervisor Dr. Monika Sodhi for providing necessary infrastructure, resources and leading to the path to accomplish my research work. I warmly thank her for valuable advice, constructive criticism and her extensive discussions around my work. I could not have imagined having a better advisor for my Ph. D. study. I owe my sincere gratitude to my other supervisor Dr B. P. Mishra for his extensive discussions around my work and interesting explorations in operations which have been very helpful for this study.

I gratefully acknowledge Dr. M Mukesh for his understanding, encouragement and personal attention which have provided good and smooth basis for my Ph.D. tenure.

It's my fortune to gratefully acknowledge the support of some special individuals. Words fail me to express my gratitude to Mrs. Parvesh Kumari for her constant technical support and generous care. Thanks are also due to Mr. Harvinder Singh for providing his help as and whenever required.

A journey is easier when you travel together. Interdependence is certainly more valuable than independence and in team-work one can accomplish something much bigger. This thesis is the result of support, encouragement, care, understanding and precious friendship of Dr. K. Khate, Dr. Renu Kapil who were always there when I really needed. I would also like to cheer up the friendship and support of my labmates, Neha Kapila and Ankita Sharma who made my stay joyous in the lab.

The road to my research started as a Project assistant at CSIR-Institute of Himalayan Bioresource Technology, Palampur, (H.P), I take this opportunity to say heartfelt thanks to

Dr. Sanjay Kumar, Senior Principal Scientist, Biotechnology Division for providing an insight of Molecular Biology and Proteomics. My friends at IHBT (Dr. S.K. Ghawana, Dr. P.K. Bharadwaj, Dr. Harsharan Singh and Arun Kumar), CSIO (Deepak Kukkar), PGIIMER (Ashok Yadav, Amit Kumar and Akhilesh Kumar), Panjab University (Avnish Kumar), NBAGR (Dr. Navneet kaur, Dr. Manoj Kumar Vyas, Lakshyaveer, Anurodh Sharma and Parveen Dubey) were among those who kept me going at the beginning of my research carrier.

Last but not least, I would like to pay high regards to my family for their sincere encouragement and inspiration throughout my research work and lifting me uphill this phase of life. I owe everything to them. Besides this, several people have knowingly and unknowingly helped me in the successful completion of this project.

I take this opportunity to sincerely acknowledge Director, NBAGR (ICAR) for granting the permission to carry out my research work and Department of Biotechnology (DBT), Government of India, New Delhi, for providing financial assistance in the form of Senior Research Fellowship which buttressed me to perform my work comfortably.
