Acknowledgments

In my opinion, doing a Ph.D. is a sacred task and this was definitely one of the best decisions of my life. The first person I would like to thank is my supervisor, Prof. M.S. Johal, Department of Zoology, Panjab University, Chandigarh. During these years, I have known Prof. Johal as a sympathetic and principle-centered person. His overly enthusiasm and integral view on research and his mission for providing 'only high-quality work and not less', has made a deep impression on me. I owe him lots of gratitude for having me shown this way of research. He could not even realize how much I have learned from him. I am deeply indebted to him for all his innovative ideas, his unflinching interest in my work and his never ending optimism. I had the privilege and the opportunity to meet a real teacher and a great man.

It has been a great experience to be part of this institute. I have been lucky enough to have been surrounded by wonderful colleagues during my time as a Ph.D. student. Some of my colleagues have become friends and a powerful source of inspiration and energy. A special thought is devoted to Dr. Y.K. Rawal for his never ending support and motivation. I owe a deep sense of gratitude to him.

I warmly acknowledge the help rendered by Prof. Neelima R. Kumar, Chairperson, Department of Zoology, Panjab University, Chandigarh for providing necessary laboratory facilities.

I am extremely grateful to my teachers Prof P.K. Mittal and Prof R. Jindal for their blessings and moral support. I express my gratitude for all the teachers of Zoology Department, Panjab University Chandigarh.

I express my sincere thanks to UGC, New Delhi for the award of fellowship which enabled me to pursue this project. I am thankful to Mr. M.L. Sharma, C.I.L., Panjab University, Chandigarh for his help in photography in the field of Scanning Electron Microscopy.

I would also like to convey my vote of thanks to all the teaching faculty of the department for providing support and blessing during my stay in the department.
I am also grateful to the non-teaching staff of the Zoology Department. My special thanks to Mr. Yoginder Pal for his never ending support.

The blessing and moral support of Mrs. Kuldeep Johal was a great source of strength and encouragement.

I feel great pleasure in acknowledging the whole-hearted support rendered by my colleagues viz. Ms. Ravneet Kaur, K. Birla Singh, Rakesh Thakur, Ms. Sarbjeet Kaur, Sanjay Jha and my other lab-mates.

I would like to give a special mention for the support given by my friends Sanjeev Chandel and Susheel Gautam who always kept his hands open to receive me.

I wish to thank Mr. Shashi Kant Gupta for his masterful expertise in typing, editing and setting the manuscript.

My Parents who formed part of my vision and taught me the good things that really matters in life. I owe a great deal of gratitude to my parents, who has been a constant source of love, concern, support and strength all these years and love and support from my brother Harsh Kumar and sisters Kaushalya, Shanti and Seema.

My special thanks to my wife Bindu, for her understanding about my busy routine during all these years, selfless love, support all along, encouragement and company during the preparation of this thesis.

I specially appreciate the help and the support of all those people who have directly or indirectly helped me.

In the last but not least, I thank “Almighty” for giving me enough strength to complete this scientific voyage.
