ACKNOWLEDGEMENTS

My interest in the study of achievement motivation as related to anxiety in children induced me to approach my supervisor Dr. (Mrs.) H.K. Nijhawan, Head, Department of Psychology, Panjab University, Chandigarh. She very graciously agreed to be my guide. I owe a deep sense of gratitude to her for her able guidance. Her deep insight into this problem with a critical and practical approach not only made it possible for me to complete this research but also led me to a habit of clear thinking as a researcher.

My special thanks are due to Dr. A.B.L. Srivastava, Statistician, Asian Institute of Educational Planning and Administration, New Delhi, for his ungrudging and most able guidance in the statistical analysis of the data. I am also thankful to Sh. Tirath Das Chaudhry and Sh. J.K. Arora for providing facilities for statistical analysis.

I owe my sincere thanks to the principals, teachers and students of different higher secondary schools for boys and girls at Chandigarh, Jullundur, and Amritsar, for all their kind cooperation and help.

I shall be failing in my duty if I do not thank Idel R. Bruckman, Dr. C.P. Smith, Prof. N.T. Feather, Dr. P. Mehta, T. Hayashi, Prof. W.P. Robinson, Ann D. Mingione, and W.J. McKeachie, for the supply of reprints of their articles as well as their valuable suggestions.
I feel indebted to my friends and colleagues 
Prem, Vibha, Promila, Indu and Sarita for the help they gave 
from time to time during my research assignment.

I am also grateful to Sh. Kishori Lal who in spite 
of his other duties, managed to do the whole typing work in 
an efficient manner within a short time.

Last but not the least, my thanks are due to 
Dr. (Mrs.) Ved Chugh, Dr. M.L. Chugh Dr.P.H., Prof. Medical 
College Amritsar, Prof. O.P. Khuranna of Khalsa College, 
Jullundur City, and my father Sh. B.R. Chaudhry for their 
being constant sources of inspiration and moral support.

Mirmala Chaudhry
Department of Psychology, 
Panjab University, 
Chandigarh.
