

Acknowledgement

Constructing a PhD thesis is like building a house. I was very lucky to have a group of great "architects", my supervisors, to guide me and supply me with a "blue print" and "building materials".

Foremost, I express my sincere gratitude to my supervisors, Dr. Bikram Singh Scientist & Head, Natural Plant Products Division, IHBT, Palampur and Prof. Samsher S. Bari, Panjab University, Chandigarh for their valuable guidance, unconditional support and constant encouragement during this research work. Their inspiration, new ideas and thoughts, constructive criticism, advices and attitude have not only taught me to act scientifically, but also changed the way I comprehend the course of life.

I feel immense pleasure and privilege in expressing my deep sense of gratitude towards Dr. P. S. Ahuja, Director, Institute of Himalayan Bioresource Technology (CSIR), Palampur for his constant encouragement and for providing necessary facilities to carry out the research work.

I also express my deep regards to Dr. V. K. Kaul, Former Head, Natural Plant Products Division, Dr. Arun K. Sinha and Er. G. D. Kiran Babu, Scientists, Natural Plant Products Division, IHBT, Palampur for their constant encouragement and guidance.

I express my sincere thanks to Prof. Paramjit Singh, Chairman, Department of Chemistry, Panjab University Chandigarh for his support during my research work.

I owe my loving thanks to my wife Pamita for her support, encouragement and in designing research work that produced many research papers together.

*I am also thankful to Dr. Lal Singh, Himalayan Research Group, Shimla for his support on the work of endophytic fungi of *Taxus wallichiana* and Dr. Urmila Thatte and Dr. Renuka Mishra, Dept. Of Clinical Pharmacology, TMI Medical College, B.Y.L. Nair Charitable Hospital, Mumbai, for evaluating immunomodulatory activities of samples.*

I would like to thank Mukesh Mohan Bahuguna, Manoj, Vikrant Gautam, Upendra Kumar Sharma and Kapil Sharma for the valuable friendship, support and encouragement during some frustrating moments of the research work. I acknowledge the help extended by Dr. Ajai Prakash Gupta and Dr. Aman Bhalla for the ready willing co-operation during my work.

I am also thankful to Mr. Upendra Sharma, Mr. Vishal and Mr. Praveen Kumar for readily taking up the task of producing typescript, indexing in a presentable manner and bringing out this thesis in the present form.

I express my thanks to Mr. Ramesh Kumar and Mr. Dhruv Kumar for their technical support during my research work.

I would like to express my thankfulness to my friends & colleagues Dr. Gireesh Nadda, Dr. Yogesh Pakade, Er. Mohit Sharma, Dr. Amit Bafana, Dr. Pralay Das, Dr. Partha Ghosh and Dr. Vijai Kant Agnihotri for their constant co-operation and encouragement.

As a "trainee builder", a PhD student, I am very grateful that I was paid. I'd like to express my sincere gratitude to the Council of Scientific & Industrial Research (CSIR), which supported me with research fellowship to enable me to finish my PhD without sacrificing my financial integrity. The generous support of the CSIR was instrumental to the achievement of this work.

I also would like to express my acknowledgment to the CSIR and Department of Science & Technology (DST) for their travel grants, which enabled me to attend the PSE-Young Scientist Meeting in Bad Herrenalb, Germany in 2008. A short lecture of my work has been presented at the conference.

I am falling short of words to express my thanks and gratitude to my parents, brother and sisters who stood by my side and boosted my moral under most difficult circumstances. It is their love, care, sacrifice and sincere prayer that has helped me in the successful completion of this work.
