LIST OF FIGURES

Fig 1: p53 expression and functions

Fig. 2: DNA end-replication problem

Fig.3: Paradigm of cancer development, showing events and mechanisms that can be monitored by molecular epidemiological studies.

Fig. 4: Isolation of genomic DNA from blood of lung cancer patients. 2µl of DNA was loaded in each well of a 0.7% agarose gel.

Fig. 5: Isolation of genomic DNA from blood of control subjects. 2µl of DNA was loaded in each well of a 0.7% agarose gel.

Fig.6: PCR-RFLP genotype analysis of cyp1a1 (msp1) gene among lung cancer cases.

Fig.7: PCR-RFLP genotype analysis of cyp1a1 (msp1) gene among lung cancer cases.

Fig.8: Allelic specific cyp1a1 (ile/val) genotype analysis of lung cancer patients.

Fig.9: Allelic specific cyp1a1 (ile/val) genotype analysis of control subjects.

Fig.10: PCR–RFLP genotype analysis of cyp2d6 gene of lung cancer patients and controls.

Fig.11: PCR–RFLP genotype of cyp2d6 of lung cancer patients.

Fig.12: PCR–RFLP analysis of cyp2d6 of control subjects.

Fig.13: PCR–RFLP analysis of cyp2e1 of lung cancer patients.

Fig.14: PCR–RFLP analysis of cyp2e1 of control subjects.
Fig. 15: Multiplex PCR for \textit{gstm1} and \textit{gstt1} genes of lung cancer patients.

Fig. 16: Multiplex PCR for \textit{gstm1} and \textit{gstt1} genes of control subjects.

Fig. 17: PCR amplification of exon 5 of \textit{p53} gene of lung cancer patients

Fig. 18: PCR amplification of exon 6 of \textit{p53} gene of lung cancer patients

Fig. 19: PCR amplification of exon 7 of \textit{p53} gene of lung cancer patients

Fig. 20: PCR amplification of exon 8 of \textit{p53} gene of lung cancer patients

Fig. 21: PCR-SSCP analysis of exon 5 of \textit{p53} gene of lung cancer patients

Fig. 22: PCR-SSCP analysis of exon 6 of \textit{p53} gene of lung cancer patients

Fig. 23: PCR-SSCP analysis of exon 7 of \textit{p53} gene of lung cancer patients

Fig. 24: PCR-SSCP analysis of exon 8 of \textit{p53} gene of lung cancer patients

Fig. 25: Telomerase activity in bronchial washings of lung cancer patients

Fig. 26: Telomerase activity in bronchial washings of lung cancer patients

Fig. 27: Telomerase activity in bronchial washings of lung cancer patients
