ACKNOWLEDGEMENTS

It is my great privilege to express my deep sense of gratitude and indebtedness to Prof. G. S. Rawla, Chairman of Botany Department, for his valuable suggestions, expert advice and kind encouragement during the course of this work. It is due to his keen interest and esteemed guidance that this thesis has taken its present form. Dr. I.B. Prasher Lecturer in Mycology and Plant Pathology deserves my special thanks for his ever ready help during experimentation. Dr. (Mrs) Rawla deserves my special thanks for being source of unfeigned encouragement during the course of this work.

I am grateful to Principal K. S. Arya, D.A.V. College, Chandigarh who generously provided me necessary facilities and encouragement.

The financial assistance received from U.G.C. in the form of minor research project is gratefully acknowledged.

It is my pleasure to thank Dr. J. P. Naggal, Reader Biochemistry Department, Panjab University, Chandigarh, who generously provided me necessary guidance.

I am indebted to Dr. K. L. Toky, Dr. I. L. Bradoo, Dr. Rajesh Shrama, Mrs Ananjit Arneja, Miss Savita Mahajan,
Sh. G. P. Mahaw, Sh. Amarjit Singh, Sh. Gurcharan Singh and all my friends for their friendly co-operation and good wishes. Lastly I express my gratitude to my mother and family members for their inspiration.
