ACKNOWLEDGEMENT

It is my proud privilege to express my gratitude to Dr. (Mrs.) Tehal Kohli, Lecturer, Department of Education, Panjab University, Chandigarh for her constant inspiration for the present investigation. Her vertical evaluation and creative ideas have added greatly to the readability of each chapter and rendered it possible for me to achieve the results. But for her active direction in chalking out the Portage training programme according to Indian conditions this thesis would not have been possible.

I am highly thankful to the ICDS and UNICEF authorities, U.T., Chandigarh, the Parents Association and the doctors who have helped me in identifying the mentally retarded children. My special thanks are due to the parents of MR children Anganwadi workers and the teachers of the Navjivini School, Patiala, who fully involved themselves in this project.

Mrs. Kohli and I express our thanks to Dr. Roger Blunden for providing the inspiration to take up this challenging project while he was attending the First Combined Asian Regional Commonwealth Congress at Banglore in 1981. He also readily gave me the requisite guidance through correspondence.

Mrs. Kohli also joins me in conveying our thanks to Shearer and Shearer, Dr. Kushuck and his co-workers, Mr. Sean Cameron and others, who sent us their research papers to equip us theoretically for undertaking this project and placing it on a sound footing.
It gives me immense pleasure to place on record my deep sense of gratitude to Miss Batni Devi for her sound help in editing the whole manuscript.

I express my thanks to the authors whose works I have consulted and quoted in this study.

Above all, my special thanks are due to Professor (Mrs.) Saini, Chairperson, Department of Education, Panjab University, Chandigarh for the guidance she gave me all through the project despite her heavy work schedule.

(Rajni Dutta)

Deptt. of Education, Panjab University, CHANDIGARH- 160014.
