ACKNOWLEDGEMENTS

Om Bhur Bhuva Swaha, Tath Satishk Varanyam
Bhargo Devasya Dheemahi, Dhiyo Yonaha Prachodayath

The Gayatri is considered as Vedasara- "the essence of the Vedas". Veda means knowledge, and this prayer fosters and sharpens the knowledge-yielding faculty. Thank you God for blessing me with the spirit and the strength to reach such an important milestone of my life.

My heart today overflows with gratitude that is silent but deeper than anyone knows. I would like to thank all of those who have supported me throughout the course of this project and otherwise. Without their time and effort, this endeavor would not have been possible.

First of all, I pay homage to Late Prof. D. P. Jindal for his compassion and bountiful blessings that made me see this wonderful moment. Mere words are not enough to express my admiration for him. His steadfast support to this project was greatly needed and deeply appreciated. His unwavering confidence in my abilities and guidance will be intensely missed. However, his wisdom, knowledge and ideals will always live in me as an inseparable ingredient of my life, guiding me forever.

There are no words to match my gratitude to the pillar of learning, my revered guide, Dr Ranju Bansal, Senior Lecturer (Pharmaceutical Chemistry), University Institute of Pharmaceutical Sciences, Panjab University, Chandigarh, India. Her sage advice, insightful criticisms, and patient encouragement aided the completion of this thesis in innumerable ways. Above all else, she has shaped my attitude, nurtured me with discipline and light. Thank you Ma'am for giving me the strength to carry on inspite of all the difficulties, which I came across. You always make me want to try harder and to succeed. You've made me believe in me.

I express my thanks to Late Prof. A. K. Singla (Former Chairperson) and Prof. T. R. Bhardwaj (Chairperson) for their kind support and excellent working facilities. I sincerely appreciate all the faculty members of UIPS especially Dr Poonam Pipali for carefully taking me to the path of learning.

I feel highly indebted to Panacea Biotech Ltd, University Grants Commission and Council for Scientific and Industrial Research (New Delhi, India) for the financial assistance.

It is a matter of profound privilege and pleasure to thank National Cancer Institute, Bethesda, USA for screening the compounds for antineoplastic activity; Prof. Alan Harvey, Director, Strathclyde Institute of Drug Research, Glasgow, U.K, for performing neuromuscular blocking activity of the quaternary ammonium steroids, and Prof. Rolf W. Hartmann, University of Saarland, Germany for testing our compounds for the aromatase inhibitory activity. I take this wonderful opportunity to thank again Dr Ranju Bansal for testing the quaternary compounds for neuromuscular blocking activity at SIOR, U.K, during her commonwealth fellowship. I extend my warm appreciation to Prof. V. Parthasarathi, Bharathidasan University, Trichi for carrying out the crystallographic studies of our
compounds and Dr Y. K. Hamied, Cipla Ltd., Mumbai for generous supply of
(Dehydroepiandrosterone Acetate."

The unhesitating cooperation of Avtar Singh Ji (RSIC, PU), Mr. Drhub
Dev, Mr. Ravinder, Mr. Kishori Lal, Ms. Ranjit Kaur, Mr. Mangu Lal, Mr. Shadi
Lal (Technical staff) and Mr. P. D. Choudhery (Librarian) is duly acknowledged.

I will always appreciate and treasure the Jindal family and the Gupta family
for their overwhelming support and motivating me to reach my goals. I am grateful
for the relationships that I have built with them.

Amita, Benu, Saru, Ruchi, Vandana, Dinesh, Neeraj and Dr Jatinder are the
best gifts of God. Thanks to all of you for making me rich by giving the gifts of hope
in the time of despair, helping me through thick and thin and for going an extra mile
to inspire and encourage me. Throughout the course of this project, my colleagues
Priyanka, Gaurav, Aman Trehan, Gulshan, Neelima and juniors have always kept
me cheerful. I thank them for giving me their helping hands whenever and wherever
it was required.

A world of praise I can bestow on Arvind, my constant source of
couragement, for all his kind ways, bringing happiness to a heart full of woe,
giving me a shove in the right direction when I hesitated, and instilling in me the
determination to reach for the stars.

I would have never reached to this milestone without the unrelenting
support and cavernous faith of my family. My respected mother, brothers (Brij,
Vicky, Lucky) and bhabhi (Rajni, Rishu) always uplifted my morale during the
testing times and gave me the strength of endurance and persistence to prove my
capabilities. To them I owe my wonderful today and dreamfilled future. The magical
smiles and love of lil angels Arsh, Kunsh and Krishna is invaluable.

Lastly, I take few moments to remember my beloved father Sh. K. S. Guleria
who was and will always be the driving force for my achievements. Thank you Dad
…… from the days of being a little baby and holding your hands for taking my very
first step to where I am today……I owe it all to you. You have always helped me
see the things through. I am unfortunate to lead a life minus your presence in this
world but you will be part of everything I do and when I need strength, I'll look
inside for you.

The expertise in this study belongs to those acknowledged above and all
errors are mine.

SHEEVAL GULERIA
