ACKNOWLEDGMENTS

The author deems it a proud privilege to have worked under the able guidance of Dr. (Mrs.) Pratibha Dee. Her indefatigable fact finding zeal was a source of constant inspiration. Although the span of this study her help was unsparingly and generously available, much at the cost of her own time, for which the author acknowledges his grateful appreciation.

Author is also grateful to Shri J.N. Joshi for the valuable discussions he had with him at various stages of the study. Besides, thanks are due to a galaxy of sincere friends, namely, Shri Shivraj Anand, Shri B.K. Passi, Shri G.K. Khokhar, Shri Hari Singh Dhalival, and Miss D.K. Walia, who rendered useful help in more than one ways.

The author also acknowledges with gratitude the help rendered by Shri S.M. Lal, Shri Ravi Parkash, Shri D.K. Mehta, Shri Y.N. Kaul, and Miss Asha Bhatnagar in the presentation of figures. Thanks are particularly due to Shri S.S. Tandon for the meticulous type work done by him.

Thanks are also due to the United States Educational Foundation in India, New Delhi, for making available funds for a part of the study.
