LIST OF PLATES

4.1 Light microphotograph of *Bacillus circulans* AB 16 75
4.2 Polyacrylamide gel electrophoresis of xylanase from *Bacillus circulans* AB 16 84
4.3 SDS polyacrylamide gel electrophoresis of xylanase A and B from *Bacillus circulans* AB 16 100-101
4.4 Hydrolysis products of xylan after action of purified Xyl A and Xyl B from *Bacillus circulans* 108
4.5 Qualitative detection of xylanase production in *E. coli* 109
4.6 Xylanase production by *E. coli* with pAD2 and pAD21 113
4.7 Southern hybridisation of chromosomal DNA of *Bacillus circulans* 114
4.8 SDS polyacrylamide gel electrophoresis of xylanase from *E. coli* with pAD2 118
4.9 Hydrolysis products of xylanase from *E. coli* with pAD2 119
4.10 Comparison in brightness of Eucalyptus pulp treated with xylanase from *E. coli* with pAD21 134
4.11 Brightness of paper sheets made from Eucalyptus pulp during bleaching 136
4.12 GC profile of ethanol production by *Pachysolen tannophilis* 138
