</table>
10. Analysis of covariance for three experimental and Control groups on Standing Long Jump.

11. Significance of the Differences between pre-test and post test of experimental groups and Control group on Yogic Treatment (Standing Long Jump).

13. Paired Adjusted Final means and differences between the means for three experimental groups and Control group on 50 Yard-dash.

14. Significance of the differences between Pre-Test and Post-Test of experimental groups and Control group on Yogic Practices (50 Yard-dash).

15. Analysis of covariance for three experimental and Control group on 600 Yard run walk.

16. Significance of the differences between Pre-test and Post-test of three experimental groups and Control group on Yogic Practices (600 Yard run walk).

17. Analysis of covariance for three experimental and Control group on Vital Capacity.

18. Paired Adjusted Final means and differences between the means for three experimental groups and Control group on Vital Capacity.

19. Significance of the differences between Pre-test and Post-test of three experimental groups and Control group on Yogic Practices (Vital Capacity).
20. Analysis of covariance for three experimental and Control group on Systolic Blood Pressure. 136
21. Paired Adjusted Final means and differences between the means for three experimental groups and Control group on Systolic Blood Pressure. 137
22. Significance of the differences between Pre-test and Post-test of three experimental groups and Control group on Yogic Practices (Systolic Blood Pressure). 138
23. Analysis of covariance for three experimental and Control group on Diastolic Blood Pressure. 140
24. Paired Adjusted Final means and differences between the means for three experimental groups and Control group on Diastolic Blood Pressure. 141
25. Significance of the differences between Pre-test and Post-test of three experimental groups and Control group on Yogic Practices (Diastolic Blood Pressure). 142
26. Analysis of covariance for three experimental and Control group on Pulse Rate. 143
27. Paired Adjusted Final means and differences between the means for three experimental groups and Control group on Pulse Rate. 144
28. Significance of the differences between Pre-test and Post-test of three experimental groups and Control group on Yogic Practices (Pulse Rate). 145
29. Analysis of covariance for three experimental and Control group on State Anxiety. 151
30. Paired Adjusted Final means and differences between the means for three experimental groups and Control group on State Anxiety.  

31. Significance of the differences between Pre-test and Post-test of three experimental groups and Control group on Yogic Practices (State Anxiety).  

32. Analysis of covariance for three experimental and Control group on Trait Anxiety  

33. Paired Adjusted Final means and differences between the means for three experimental groups and Control group on Trait Anxiety.  

34. Significance of the differences between Pre-test and Post-test of three experimental groups and Control group on Yogic Practices (Trait Anxiety).
