</table>
14. Post hoc test for quadriceps strength (peak torque) of non-dominating leg at 60°/sec speed.
15. Analysis of variance for quadriceps strength (peak torque) of non-dominating leg at 180°/sec speed.
16. Post hoc test for quadriceps strength (peak torque) of non-dominating leg at 180°/sec speed.
17. Analysis of variance for quadriceps strength (peak torque) of non-dominating leg at 240°/sec speed.
18. Post hoc test for quadriceps strength (peak torque) of non-dominating leg at 240°/sec speed.
19. Analysis of variance for hamstring strength (peak torque) of dominating leg at 60°/sec speed.
20. Post hoc test for hamstring strength (peak torque) of dominating leg at 60°/sec speed.
21. Analysis of variance for hamstring strength (peak torque) of dominating leg at 180°/sec speed.
22. Post hoc test for hamstring strength (peak torque) of dominating leg at 180°/sec speed.
23. Analysis of variance for hamstring strength (peak torque) of dominating leg at 240°/sec speed.
24. Post hoc test for hamstring strength (peak torque) of dominating leg at 240°/sec speed.
25. Analysis of variance for hamstring strength (peak torque) of non-dominating leg at 60°/sec speed.
26. Post hoc test for hamstring strength (peak torque) of non-dominating leg at 60°/sec speed.
27. Analysis of variance for hamstring strength (peak torque) of non-dominating leg at 60°/sec speed.
non-dominating leg at 180°/sec speed.

28. Post hoc test for hamstring strength (peak torque) of non-dominating leg at 180°/sec speed.

29. Analysis of variance for hamstring strength (peak torque) of non-dominating leg at 240°/sec speed.

30. Mean values of hamstring/quadriceps strength ratio of four groups at selected speeds.

31. Comparison of hamstring/quadriceps strength ratio between dominating and non-dominating leg (%).

32. Analysis of variance for hamstring/quadriceps strength ratio of dominating leg at 60°/sec speed.

33. Analysis of variance for hamstring/quadriceps strength ratio of dominating leg at 180°/sec speed.

34. Analysis of variance for hamstring/quadriceps strength ratio of dominating leg at 240°/sec speed.

35. Analysis of variance for hamstring/quadriceps strength ratio of non-dominating leg at 60°/sec speed.

36. Analysis of variance for hamstring/quadriceps strength ratio of non-dominating leg at 180°/sec speed.

37. Post hoc test for hamstring/quadriceps strength ratio of non-dominating leg at 180°/sec speed.

38. Analysis of variance for hamstring/quadriceps strength ratio of non-dominating leg at 240°/sec speed.

39. Post hoc test for hamstring/quadriceps strength ratio of non-dominating leg at 240°/sec speed.

40. Angle of peak torque (A.O.P.T.) mean, SD values of quadriceps and hamstring for four groups (degrees).
41. Significance of difference in angle of peak torque between quadriceps and hamstring of dominating leg (degrees).

42. Significance of difference in angle of peak torque between quadriceps and hamstring of non-dominating leg (degrees).

43. Significance of difference in angle of peak torque between quadriceps and hamstring of dominating and non-dominating leg (degrees).

44. Significance of difference in angle of peak torque between hamstring of dominating and non-dominating leg (degrees).

45. Analysis of variance for angle of peak torque in quadriceps of dominating leg at 60°/sec speed.

46. Analysis of variance for angle of peak torque in quadriceps of dominating leg at 180°/sec speed.

47. Analysis of variance for angle of peak torque in quadriceps of dominating leg at 240°/sec speed.

48. Analysis of variance for angle of peak torque in quadriceps of non-dominating leg at 60°/sec speed.

49. Analysis of variance for angle of peak torque in quadriceps of non-dominating leg at 180°/sec speed.

50. Analysis of variance for angle of peak torque in quadriceps of non-dominating leg at 240°/sec speed.

51. Analysis of variance for angle of peak torque in hamstring of dominating leg at 60°/sec speed.

52. Analysis of variance for angle of peak torque in hamstring of dominating leg at 180°/sec speed.

53. Analysis of variance for angle of peak torque in hamstring of dominating leg at 240°/sec speed.
54. Analysis of variance for angle of peak torque in hamstring of non-dominating leg at 60°/sec speed.
55. Analysis of variance for angle of peak torque in hamstring of non-dominating leg at 180°/sec speed.
56. Analysis of variance for angle of peak torque in hamstring of non-dominating leg at 240°/sec speed.
57. Torque acceleration energy (TAE) mean values of quadriceps and hamstring for four groups (Joule).
58. Significance of difference in torque acceleration energy between quadriceps and hamstring of dominating leg (Joule).
59. Significance of difference in torque acceleration energy between quadriceps and hamstring of non-dominating leg (Joule).
60. Significance of difference in torque acceleration energy between quadriceps of dominating and non-dominating leg (Joule).
61. Significance of difference in torque acceleration energy between hamstring of dominating and non-dominating leg (Joule).
62. Analysis of variance for torque acceleration energy in quadriceps of dominating leg at 60°/sec speed.
63. Post hoc test for torque acceleration energy in quadriceps of dominating leg at 60°/sec speed.
64. Analysis of variance for torque acceleration energy in quadriceps of dominating leg at 180°/sec speed.
65. Post hoc test for torque acceleration energy in quadriceps of dominating leg at 180°/sec speed.
66. Analysis of variance for torque acceleration energy in quadriceps of dominating leg at 240°/sec speed.
67. Post hoc test for torque acceleration energy in quadriceps of dominating leg at 240°/sec speed.
68. Analysis of variance for torque acceleration energy in quadriceps of non-dominating leg at 60°/sec speed.
69. Post hoc test for torque acceleration energy in quadriceps of non-dominating leg at 60°/sec speed.
70. Analysis of variance for torque acceleration energy in quadriceps of non-dominating leg at 180°/sec speed.
71. Post hoc test for torque acceleration energy in quadriceps of non-dominating leg at 180°/sec speed.
72. Analysis of variance for torque acceleration energy in quadriceps of non-dominating leg at 240°/sec speed.
73. Post hoc test for torque acceleration energy in hamstring of non-dominating leg at 240°/sec speed.
74. Analysis of variance for torque acceleration energy in hamstring of dominating leg at 240°/sec speed.
75. Analysis of variance for torque acceleration energy in hamstring of dominating leg at 180°/sec speed.
76. Analysis of variance for torque acceleration energy in hamstring of dominating leg at 240°/sec speed.
77. Analysis of variance for torque acceleration energy in hamstring of non-dominating leg at 60°/sec speed.
78. Post hoc test for torque acceleration energy in hamstring of non-dominating leg at 60°/sec speed.
79. Analysis of variance for torque acceleration energy in
hamstring of non-dominating leg at 180°/sec speed.

80. Post hoc test for torque acceleration energy in hamstring of non-dominating leg at 180°/sec speed.

81. Analysis of variance for torque acceleration energy in hamstring of non-dominating leg at 240°/sec speed.

82. Norms for quadriceps peak torque (Nm) - Throwers.
83. Norms for quadriceps peak torque (Nm) - Jumpers.
84. Norms for quadriceps peak torque (Nm) - Sprinters.
85. Norms for quadriceps peak torque (Nm) - Middle distance runners.

86. Norms for hamstring peak torque (Nm) - Throwers.
87. Norms for hamstring peak torque (Nm) - Jumpers.
88. Norms for hamstring peak torque (Nm) - Sprinters.
89. Norms for hamstring peak torque (Nm) - Middle distance runners.
