CONTENTS

ABSTRACT 1

Chapter 1 : INTRODUCTION 5

Chapter 2 : THE DYNAMICAL FRAGMENTATION THEORY 16

2.1 Introduction 16

2.2 The Asymmetric Two Centre Shell Model 17

2.3 The Fragmentation Theory 20

2.4 The Potential Energy Surfaces 23

2.4.1 Coulomb Interaction Energy 25

2.4.2 The Proximity Potential 26

2.4.3 Rotational Energy due to Angular Momentum 28

2.5 Inertial Mass Parameters 30

2.6 Solution of Stationary Schrödinger Equation in Mass Fragmentation Coordinate 32

FIGURE CAPTIONS 34

FIGURES

Chapter 3 : CLUSTERING FORMATION IN NUCLEI AND THE NEW CLUSTER RADIOACTIVITY 35

3.1 Introduction 35

3.2 Summary of Experimental Results 36

3.3 Summary of Early Theoretical Attempts 38

3.4 Clustering Formation in Nuclei 43

3.5 Model of Clustering formation and decay in Radioactive Nuclei 48
