ACKNOWLEDGEMENTS

It is my most sacred and pleasant duty to express my sincerest gratitude to my revered guide.

My respected guide Dr. Jitendra Mohan, Department of Psychology, Panjab University Chandigarh, is well known for his research involvement and awareness of the problems of youth. It is indeed difficult to express my indebtedness to him for his correct and precious guidance and able mentorship. I had the opportunity to conduct and complete this arduous and enerating task under his kind guidance, and I am grateful for his everremitting concern, painstaking supervision, keen involvement and thoroughness, without which, I must admit this thesis would have been impossible.

I owe a profound debt and gratitude to Dr. H.N. Pangotra, Reader, Education Department, Panjab University Chandigarh, my revered guide, who ceaselessly extended his cooperation for arousing in me single minded devotion for this work. I am very thankful to him for his generous, sympathetic, inspiring and ever ready help and a substantial advice in completing my work at this crucial juncture.

I highly value the words of Dr. Mrs. Vidhu Mohan, Reader, Psychology Department, Panjab University Chandigarh for her encouragement, affectionate and sympathetic support whenever sought.
My sincerest thanks are due to Prof. J. N. Joshi, Education Department, Panjab University Chandigarh, whose untiring scholarly efforts have greatly contributed in improving the quality of this thesis. I am also grateful to Dr. Mrs. R.K. Saini, Chairman, Education Department, Panjab University Chandigarh, for her support and help.

My special thanks are also due to Mr. C. H. Bahl, Incharge, Computer Centre, for generously providing computational facilities.

Last but not the least, I am thankful to Mr. Christopher Gray for drawing the figures and Mr. J.L. Bajaj for doing the most important job, typing out this thesis.
