ACKNOWLEDGEMENT

I welcome this opportunity to place on record my deep sense of gratitude to my guide, Prof. G.S. Gupta, Department of Biophysics, Panjab University, Chandigarh, for his invaluable and timely guidance. I am extremely grateful to my teacher and co-guide Dr. (Mrs.) S.K. Thind, Emeritus Scientist, Department of Biochemistry, PGIMER, Chandigarh. Her constant encouragement and constructive criticism went a long way in keeping my spirits high and meeting every obstacle with courage and surety.

I would like to convey my thanks to Prof. R. Nath, Head, Department of Biochemistry, PGIMER, Chandigarh, for his invaluable suggestions and for providing me with all the necessary facilities.

I also acknowledge the kind help accorded to me by Dr. D.R. Taneja, Director, Regional Computer Centre, Chandigarh for the statistical analysis and computer programming of the data.

My special thanks to Ms Shalini Gulati for her timely and most needed help during the preparation of the thesis. I am also grateful to my colleagues especially Mr. Vinod Rattan for their encouragement.

I am thankful to Mr. Mohit Srivastava and Mr. Ravi Sharma for the excellent typework which made this effort a success.

Finally, I want to express my deep appreciation to my parents for their patient attention and moral encouragement.

The financial assistance in the form of JRF and SRF provided to me by Indian Council of Medical Research, New Delhi, is gratefully acknowledged.
