LIST OF TABLES

Table 2.1: South East Asia-diabetes prevalence and future projections.
Table 2.2: Studies showing a rising trend in the prevalence of type 2 diabetes in India.
Table 5.1: Demographic and Socioeconomic Characteristics of NISDS Subjects.
Table 5.2: Anthropometric Characteristics of the Study Subjects Stratified by Sex and Disease Status
Table 5.3: Clinical Information of NISDS Subjects Stratified by Sex and Disease Status
Table 5.4: Biochemical Estimations of NISDS Subjects Stratified by Sex and Disease Status
Table 5.5: Logistic Regression Analysis of Clinical and Physiological Characteristics in T2DM Subjects
Table 5.6: Genotype and Allele Frequencies of SNP-43 of CAPN10 Gene
Table 5.7: Clinical and Biochemical Characteristics of Diabetic and Control Subjects According to the Genotypes of SNP-43 of Calpain 10 Gene
Table 5.8: Genotype and Allele Frequencies of SNP-19 of CAPN10 Gene
Table 5.9: Clinical and Biochemical Characteristics of T2DM Patients and Control Subjects According to the Genotypes of SNP-19 of Calpain 10 Gene
Table 5.10: Genotype and Allele Frequencies of SNP-63 of CAPN10 Gene
Table 5.11: Clinical and Biochemical Characteristics of T2DM Patients and Control Subjects According to the Genotypes of SNP-63 of Calpain 10 Gene
Table 5.12: Genotype and Allele Frequencies of Pro12Ala Polymorphism in PPARγ2 Gene
Table 5.13: Clinical and Biochemical Characteristics of T2DM Patients and Control Subjects According to the Genotypes of Pro12Ala Polymorphism of PPARγ2 Gene
Table 5.14: Genotype and Allele Frequencies of K121Q polymorphism of ENPP1 gene
Table 5.15: Clinical and Biochemical Characteristics of T2DM Patients and Control Subjects According to the Genotypes of K121Q Polymorphism of ENPP1/PC1 Gene

Table 5.16: Genotype and Allele Frequencies of Insertion/Deletion Polymorphism of ACE Gene

Table 5.17: Clinical and Biochemical Characteristics of T2DM Patients and Control Subjects According to the Genotypes of Insertion/Deletion Polymorphism of ACE Gene

Table 5.18: Genotype and allele frequencies of Gln192Ala polymorphism of PON 1 gene

Table 5.19: Relationship between clinical and laboratory findings and genotypes of Gln192Ala polymorphism of PON 1 gene in NISDS subjects
