Acknowledgement

It is my immense pleasure to express my heartfelt appreciation to all those personalities who have been instrumental to me in diversified ways. These pages reflect the relationships with many generous and inspiring people I have met since beginning of my educational journey, till this stage of research work. The list is long, but I cherish each contribution.

This research work was my modest endeavor to give some contribution in the arena of microbiology, which would have been an oceanic task without the inspiring guidance of Dr.(Mrs.) Meena U. Patil, Professor, Department of Zoology, Dr. Babasaheb Ambedkar Marathwada University, Aurangabad. Mere words cannot suffice, the immense respect and love for my guru. She gently but firmly led me through the difficult path of rectitude. Her guidance and persistent supervision signifies her scholarly abilities of par excellence. She has always been more than a Guide, a wonderful human being, who made the rough road easy walking.

I am thankful and indebted to my Co-Guide Dr. Smita M. Dharmadikari, Institute of Science, Aurangabad, for being a radiant source of inspiration and knowledge. Her valuable guidance, creative ideas, thoughtful discussions has certainly illuminated my knowledge.

Humble thankfulness to Dr. Zambre, Head Department of Zoology, Dr. Babasaheb Ambedkar Marathwada University, Aurangabad for the kind help throughout my research work; also the help rendered by the non teaching staff is appreciated.
My debt of gratitude is to the Principal Dr. Baburao Solunke, Vivekanand college, Aurangabad for the help and support provided. My deepest sincere thanks to Dr. D. L. Lingampalle, department of Chemistry, Vivekanand college, for his kind help and guidance. He has been an inspiring personality portraying patience and educational excellence. I am also thankful to Dr. Sambhaji Shinde, Head, Department of Zoology, Vivekanand college for guiding me in crucial stages while completing the research work. The support and help rendered by the staff of Biotechnology department, Vivekanand college is sincerely valued and appreciated.

I owe an enormous credit to Ms. Surjit kaur, Royal Life Sciences, Secunderabad, for the exposure and training related to my research work.

I also acknowledge valuable discussions through E-mails with Dr. Aharon Oren, an eminent scientist from Jerusalem Israel. His work on halophiles has revolutionized the halophilic study arena.

Genuine thankfulness to Dr. Sameer Damare & Dr. Priya D’Costa my scientist friends from National institute of Oceanography (NIO) Goa, for their valuable help and suggestions, particularly in providing relevant books and journals.

I express my gratitude to my treasured teachers, who have been my inspiration academically and personally- Ms. Savita D’Costa, Mr. Stephan Mathuny, Ms.Maria, Ms. Dilecta D’Costa , Ms.Marina Albuquere and Dr. Saroj Bhosle.

I cherish the help, love & affection rendered by all my friends and Colleagues: Particularly Urja Nimbalkar , Mukta Chincholkar, Minal Jadhav, Vishal Sangave, Shailesh Bajaj and Late Varsha Ambhore.
No word would suffice to express my gratefulness to my beloved parents for their devotion, inspiration, and blessing. I will always try to be worthy of their expectations. Although, I believe that millions of my herculean endeavors to express my gratitude will never equal to what they have given me, it is just like returning a drop of water for their ocean of love. Equal share of gratitude is to my dear brother Vishal Surve for being a strong source of inspiration throughout my educational journey.

Completion of this research work required lot of solitude, which means missing many hours from my family. I express my deepest admiration & gratitude to my husband Mr. Prashant Mahajan, an exceptional motivator and my dearest son Aryan for their encouraging words, affection and above all the trust & love they showered on me. I also express my heartfelt thankfulness to my parents in law and my entire family specially Trupti Mahajan for their support and blessings.

Vaishali Vishnu Surve
