ACKNOWLEDGEMENTS

Vocabulary research though interesting is very laborious and expensive. Some times it requires continuous work for several hours. To handle so many lists and so many bundles of papers, a lot of space is also required. In brief, one has to struggle against all odds in order to carry out such a piece of work.

The researcher had to find out expected vocabulary, to administer the vocabulary test, to collect 2,000 answer-books of annual examination, and to tape the oral speeches of 540 students. There were a great number of difficulties in doing all this. It would have been impossible to complete the work single-handed but for the help rendered by many friends at various stages. It is impracticable if not impossible, to enlist the names of all these friends here. The researcher takes this opportunity to thank them all and desires to acknowledge his indebtedness to Head Masters and teachers of all the schools that gave him facilities and helped him to collect the data.

Thanks are due to Dr. R.S. Shah the principal of Madhyamik Shikshan Mahavidyalaya, who loaned the cassettes for tape-recording of the oral speeches of std. VI pupils, to Dr. Madhubhai Buch, Head, Centre of Advanced Studies in Education, Baroda, who provided library facilities, to Shri Arun D. Bhal who helped from the beginning to the finish in this work, and to Shri P. D. Bhal and Shri M. J. Odharia.
Last but not the least, the researcher desires to record his deep sense of gratitude to Dr. H. G. Desai, his guide, without whose ever-encouraging inspiration and guidance the work could not have seen the light of the day.
