

## LIST OF TABLES

Table No.		Page
3.1.	Showing statement number belong to particular parameter	84
4.1.	Mean, standard deviation and 't' value of arm strength of girls	88
4.2.	Mean, standard deviation and 't' value of explosive strength of legs among girls	90
4.3.	Mean, standard deviation and 't' value of abdominal strength among girls	92
4.4.	Mean, standard deviation and 't' value of lower abdominal strength among girls	94
4.5.	mean, standard deviation and 't' value of upper back strength among girls	96
4.6.	Mean, standard deviation and 't' value of lower back strength among girls	98
4.7.	Mean, standard deviation and 't' values of selected motor variables among girls	100
4.8.	Mean, standard deviation and 't' value of arm strength among boys	102
4.9.	Mean, standard deviation and 't' value of explosive strength of legs among boys	104
4.10.	Mean, standard deviation and 't' value of agility among boys	106
4.11.	Mean, standard deviation and 't' value of lower abdominal strength among boys	108
4.12.	Mean, standard deviation and 't' value of upper back strength among boys	110
4.13.	Mean, standard deviation and 't' value of lower back strength among boys	112

---

4.14.	Mean, standard deviation and 't' values of selected motor variables among boys	114
4.15.	Mean, standard deviation and 't' value of pulse rate among girls	116
4.16.	Mean, standard deviation and 't' value of diastolic blood pressure among girls	118
4.17.	Mean, standard deviation and 't' value of systolic blood pressure among girls	120
4.18.	Mean, standard deviation and 't' value of reaction time among girls	122
4.19.	Mean, standard deviation and 't' value of vital capacity among girls	124
4.20.	Mean, standard deviation and 't' values of selected physiological variables among girls	126
4.21.	Mean, standard deviation and 't' value of pulse rate among boys	128
4.22.	Mean, standard deviation and 't' value of diastolic blood pressure among boys	130
4.23.	Mean, standard deviation and 't' value of systolic blood pressure among boys	132
4.24.	Mean, standard deviation and 't' value of reaction time among boys	134
4.25.	Mean, standard deviation and 't' value of vital capacity among boys	136
4.26.	Mean, standard deviation and 't' values of selected physiological variables among boys	138
4.27.	Mean, standard deviation and 't' value of acceptance among girls	140
4.28.	Mean, standard deviation and 't' value of cooperation among girls	142

---

---

4.29	Mean, standard deviation and 't' value of identification among girls	144
4.30	Mean, standard deviation and 't' value of dominance among girls	146
4.31.	Mean, standard deviation and 't' value of rejection among girls	148
4.32.	Mean, standard deviation and 't' value of isolation among girls	150
4.33.	Mean, standard deviation and 't' value of differentiation among girls	152
4.34.	Mean, standard deviation and 't' value of submission among girls	154
4.35.	Mean, standard deviation and 't' values of selected psychological variables among girls	156
4.36.	Mean, standard deviation and 't' value of acceptance among boys	158
4.37.	Mean, standard deviation and 't' value of cooperation among boys	160
4.38	Mean, standard deviation and 't' value of identification among boys	162
4.39	Mean, standard deviation and 't' value of dominance among boys	164
4.40	Mean, standard deviation and 't' value of rejection among boys	166
4.41.	Mean, standard deviation and 't' value of isolation among boys	168
4.42.	Mean, standard deviation and 't' value of differentiation among boys	170
4.43.	Mean, standard deviation and 't' value of submission among boys	172

---

---

4.44.	Mean, standard deviation and 't' values of selected psychological variables among boys	174
4.45.	Mean, standard deviation and 't' values of selected motor variables among girls and boys	176
4.46.	Mean, standard deviation and 't' values of selected physiological variables among girls and boys	178
4.47.	Mean, standard deviation and 't' values of selected psychological variables among girls and boys	180
4.48	Mean, standard deviation and 't' values of selected motor, physiological and psychological variables of secondary school girls and boys	182

---
