

LIST OF FIGURES

| Figure No. | | Page No. |
|------------|---|----------|
| 3.1. | Markings of Potato race | 53 |
| 3.2. | Markings of Knox penny cup test | 63 |
| 4.1. | Comparison of mean values of arm strength of girls | 89 |
| 4.2. | Comparison of mean values of explosive strength of legs among girls | 91 |
| 4.3. | Comparison of mean values of abdominal strength scores of girls | 93 |
| 4.4. | Comparison of mean values of lower abdominal strength among girls | 95 |
| 4.5. | Comparison of mean values of upper back strength among girls | 97 |
| 4.6. | Comparison of mean values of lower back strength among girls | 99 |
| 4.7. | Comparison of mean values of selected motor variables among girls | 101 |
| 4.8. | Comparison of mean values of arms strength among boys | 103 |
| 4.9. | Comparison of mean values of explosive strength of legs among boys | 105 |
| 4.10. | Comparison of mean values of agility among boys | 107 |
| 4.11. | Comparison of mean values of lower abdominal strength among boys | 109 |

| | | |
|-------|---|-----|
| 4.12. | Comparison of mean values of upper back strength among boys | 111 |
| 4.13. | Comparison of mean values of lower back strength among boys | 113 |
| 4.14. | Comparison of mean values of selected motor variables among boys | 115 |
| 4.15. | Comparison of mean values of pulse rate among girls | 117 |
| 4.16. | Comparison of mean values of Diastolic Blood Pressure among girls | 119 |
| 4.17. | Comparison of mean values of Systolic Blood Pressure among girls | 121 |
| 4.18. | Comparison of mean values of reaction time among girls | 123 |
| 4.19. | Comparison of mean values of vital capacity among girls | 125 |
| 4.20. | Comparison of mean values of selected physiological variables among girls | 127 |
| 4.21. | Comparison of mean values of pulse rate among boys | 129 |
| 4.22. | Comparison of mean values of diastolic blood pressure among boys | 131 |
| 4.23. | Comparison of mean values of systolic blood pressure among boys | 133 |
| 4.24. | Comparison of mean values of reaction time among boys | 135 |

| | | |
|-------|---|-----|
| 4.25. | Comparison of mean values of vital capacity among boys | 137 |
| 4.26. | Comparison of mean values of selected physiological variables among boys | 139 |
| 4.27. | Comparison of mean values of acceptance among girls | 141 |
| 4.28. | Comparison of mean values of cooperation among girls | 143 |
| 4.29. | Comparison of mean values of identification among girls | 145 |
| 4.30. | Comparison of mean values of dominance among girls | 147 |
| 4.31. | Comparison of mean values of rejection among girls | 149 |
| 4.32. | Comparison of mean values of isolation among girls | 151 |
| 4.33. | Comparison of mean values of differentiation among girls | 153 |
| 4.34. | Comparison of mean values of submission among girls | 155 |
| 4.35. | Comparison of mean values of selected psychological variables among girls | 157 |
| 4.36. | Comparison of mean values of acceptance among boys | 159 |
| 4.37. | Comparison of mean values of cooperation among boys | 161 |
| 4.38. | Comparison of mean values of identification among boys | 163 |

| | | |
|-------|--|-----|
| 4.39 | Comparison of mean values of dominance among boys | 165 |
| 4.40 | Comparison of mean values of rejection among boys | 167 |
| 4.41. | Comparison of mean values of isolation among boys | 169 |
| 4.42. | Comparison of mean values of differentiation among boys | 171 |
| 4.43. | Comparison of mean values of submission among boys | 173 |
| 4.44. | Comparison of mean values of selected psychological variables among boys | 175 |
| 4.45. | Comparison of mean values of selected motor variables among girls and boys | 177 |
| 4.46. | Comparison of mean values of selected physiological variables among girls and boys | 179 |
| 4.47. | Comparison of mean values of selected psychological variables among girls and boys | 181 |
| 4.48 | Comparison of mean values of selected motor, physiological and psychological variables of girls and boys | 184 |
