I am deeply moved to express my sincere gratitude to my guide Dr. S. RAVICHANDRA REDDY, Professor of Fishery, Department of Zoology, Bangalore University, Bangalore 560 056, for supervising the present work throughout its completion. His invaluable, guidance and support has no equivalence. At the final stage of completion of the thesis, Dr. S. RAVICHANDRA REDDY, despite a personal tragedy, put all efforts to enable me to complete the task. I am greatly indebted to him for this.

I am highly thankful to Dr. KATRE SHAKUNTALA, Professor and Chairperson, Department of Zoology, Bangalore University, Bangalore 560 056, for her inspiration, invaluable guidance and help given to me during the tenure of this work.

I place on record my sincere gratitude to Dr. V.S. RANGANATHAN, Professor and Ex-Chairperson, Department of Zoology, Bangalore University, Bangalore for his encouragement and help.

The compilation of this thesis and its present getup would not have been possible but for the timely computer facilities provided by Sri. S. SRIDHAR, Navabharat press, Seshadripuram, Bangalore. The help rendered by my colleague Miss C. AMRUTHAVALLI and my friend Mr. C.K. JAYARAJAN for the neat word processing and computer printing enabled me to complete the work on time. It is with immense pleasure that I record here my humble thanks and gratitude to them.
Several of my colleagues from the Aqua-laboratory have helped me in my work and extended support and cooperation during the compilation of the thesis. I owe a deep sense of gratitude to them.

I also thank Mr. V.B.PRASAD, Draughtsman, Civil Engineering Department, Indian Institute of Science, Bangalore, for his meticulous stencil work and preparation of figures.

I would like to appreciate here, the encouragement and help extended to me by my friends Mr. RICHARD, OKI and Mr. AMAECHI.

Finally, award of the fellowship by the University Grants Commission, New Delhi, during the tenure of the present work is gratefully acknowledged.
