List of Figures

Figure 3.1 Developing a Self-Instructional Computer-Assisted program (SICAP) 106.

Figure 3.2 Flowchart of the program SICAP on Biotechnology and Biodiversity 111.

Figure 3.3: Steps of trying out (SICAP) on individual Trial 124.

Figure 3.4: Steps of trying out (SICAP) on a small group Trial 125.

Figure 3.5: Steps of trying out (SICAP) on field group 126.

Figure 3.6: Result of the effectiveness of SICAP of pre-test and post-test 127.

Figure 3.7: The procedure of main study 135.

Figure 3.8: Research design step of Experimental method 139.

Figure 4.1: Comparison of pre-test and post-test of the three trials of the pilot study 208.

Figure 4.2: Comparison of the students’ achievement of pre-test and post-test taught through Traditional method 212.

Figure 4.3: Comparison of pre-test of achievement science of Experimental and Control. 213.

Figure 4.4: Comparison of post-test of the students’ achievement taught through SICAP and traditional method 215.

Figure 4.5: Comparison of the students’ achievement of pre-test and post-test taught through SICAP 216.

Figure 5.1: The procedure of study 236.
