<tbody>
<tr>
<td>Table 1.1</td>
<td>Subjects Required in National Tests. (OBEC from 2001)</td>
<td>11.</td>
</tr>
<tr>
<td>Table 3.1</td>
<td>Number of Teachers and Students for survey method</td>
<td>102.</td>
</tr>
<tr>
<td>Table 3.2</td>
<td>Number of experimental method for sample of students in the two groups</td>
<td>102.</td>
</tr>
<tr>
<td>Table 3.3</td>
<td>Detail of Unit I Biotechnology</td>
<td>112.</td>
</tr>
<tr>
<td>Table 3.4</td>
<td>Detail of Unit II Biodiversity</td>
<td>113.</td>
</tr>
<tr>
<td>Table 3.5</td>
<td>Result of Expert’s evaluation Checklist on Content</td>
<td>115.</td>
</tr>
<tr>
<td>Table 3.6</td>
<td>Result of Expert’s evaluation Checklist on Technology</td>
<td>116.</td>
</tr>
<tr>
<td>Table 3.7</td>
<td>The three trials of the pilot study</td>
<td>127.</td>
</tr>
<tr>
<td>Table 3.8</td>
<td>Time table of four weeks experiment per day three hours for every group</td>
<td>141.</td>
</tr>
<tr>
<td>Table 4.1</td>
<td>The information on the gender classification of teachers</td>
<td>145.</td>
</tr>
<tr>
<td>Table 4.2</td>
<td>The information about the educational qualifications of teachers</td>
<td>146.</td>
</tr>
<tr>
<td>Table 4.3</td>
<td>The subject of specialization is specified on teachers</td>
<td>147.</td>
</tr>
<tr>
<td>Table 4.4</td>
<td>The range of the years of their teaching experience is indicated of teachers</td>
<td>148.</td>
</tr>
<tr>
<td>Table 4.5</td>
<td>The teaching load in hours per week of these teachers</td>
<td>149.</td>
</tr>
<tr>
<td>Table 4.6</td>
<td>Why have you selected Science?</td>
<td>150.</td>
</tr>
<tr>
<td>Table 4.7</td>
<td>What are the scientific study methods you use while teaching the higher level concepts from Biotechnology and Biodiversity?</td>
<td>151.</td>
</tr>

</table>
Table 4.8: What mode of teaching do you follow? 152.

Table 4.9: Would you like to repeat to clarify the higher level concepts from Biotechnology and Biodiversity purposefully? 153.

Table 4.10: Do you find yourself interested in the topics and are you motivated or do you teach because it is compulsory? 154.

Table 4.11: Do you have trust or confidence about the correct and exact knowledge, understanding and updated information of your subject? 155.

Table 4.12: Do you understand the topics first and then teach? 156.

Table 4.13: Before teaching do you discuss with other teachers and seek to clarify the higher level concepts from Biotechnology and Biodiversity? 157.

Table 4.14: Do you find easy to teach and to clarify the higher level concepts from Biotechnology and Biodiversity? 158.

Table 4.15: When students ask to clarify the higher level concepts from Biotechnology and Biodiversity? 159.

Table 4.16: Are you prepared to answer their doubts or do you find it difficult, are you hesitant to answer their queries? 160.

Table 4.17: Do you prefer inter-active/brain storming sessions to clarify the higher level concepts from Biotechnology and Biodiversity? 161.

Table 4.18: Do you adopt creativity and descriptive strengths to explain the topic? 162.

Table 4.19: Do you clarify the higher level concepts while explaining or even while teaching regular topics? 163.
Table 4.20: What do you need to enhance the knowledge level of science teachers? 164.

Table 4.21: Do you use computer program as a new technological media to simplify a topic? 165.

Table 4.22: Do you have the knowledge and experience in educational technology and instruction media? 166.

Table 4.23: Do you enhance your knowledge through information searching by technology? 167.

Table 4.24: Are you always required to use instruction media for higher level concepts from Biotechnology and Biodiversity? 168.

Table 4.25: Do you have the ability to use instruction media associated with content? 169.

Table 4.26: Did you ever support and promote the instructional media for teaching and learning science? 170.

Table 4.27: Have you ever used new computer media as a technology for test preparation and more practice of exercises? 171.

Table 4.28: Have you ever used computer program as a supplementary media? 172.

Table 4.29: Have you ever used the new technology of computer program for remedial teaching? 173.

Table 4.30: Have you ever used the new technology of computer program for self-instruction? 174.

Table 4.31: The gender wise classification of these students 178.
Table 4.32: The grade point average that is scored by the students in the science subject 179.

Table 4.33: Do you like to learn Science? 180.

Table 4.34: What are the scientific study methods you like while learning the higher level concepts topics of the subject? 181.

Table 4.35: Do you make preparation before you study concepts? 182.

Table 4.36: What modes of learning do you like? 183.

Table 4.37: Do you understand the topics first and then learn? 184.

Table 4.38: Do you think that teacher makes planned repetition after teaching the higher level concepts? 185.

Table 4.39: Do you think learning the higher level concepts easy by oneself? 186.

Table 4.40: Do you find yourself interested and motivated in the topics? 187

Table 4.41: Do you trust or feel confident that you have correct and exact knowledge, understanding after you have finished each topic? 188.

Table 4.42: Are you prepared to ask your doubts or do you find it difficult? 189.

Table 4.43: Have you been learning about higher level concepts from Biotechnology and Biodiversity? 190.

Table 4.44: What did you think about the contents of Biotechnology and Biodiversity? 191.

Table 4.45: Have you ever gathered extra information relevant to concepts? 192.

Table 4.46: Do you know that the concepts of Biotechnology and Biodiversity are applied in daily life? 193
Table 4.47: What would you like to add knowledge contents of Biotechnology and Biodiversity topics? 194.

Table 4.48: Do you think teacher should always use instruction media? 195.

Table 4.49: Do you think your teacher uses the modern media? 196.

Table 4.50: Do you think the media can be understood quickly? 196.

Table 4.51: Have you ever learnt science by using computer program? 197.

Table 4.52: Do you like teacher’s using the computer program for remedial leaning? 198.

Table 4.53: Do you think that the media increases the understanding of content? 199.

Table 4.54: Do you like the new technology of computer program for self-Instruction? 200.

Table 4.55: Do you like the new technology of computer program for practice exercises? 201.

Table 4.56: Do you manage collecting information by using technology? 202.

Table 4.57: Do you think that you will gain more knowledge by using computer program for practical? 203.

Table 4.58: The three trials of the pilot study 207.

Table 4.59: The students’ achievement of pre-test and post-test taught through traditional method. 211.

Table 4.60: Pre-test of the students’ achievement taught through SICAP and traditional method 213.

Table 4.61: Post-test of the students’ achievement taught through SICAP and traditional method 214.
Table 4.62: The students’ achievement of pre-test and post-test taught through SICAP. 216

Table 5.1: The three trials of the pilot study 231.

Table 5.2: Number of Teachers and Students for survey method 234.

Table 5.3: Number of experimental method for sample of students in the two groups 235.

Table 5.4: Result of the three trials of the pilot study 240.

Table 5.5: The students’ achievement of pre-test and post-test taught through traditional method. 241.

Table 5.6: Pre-test of the students’ achievement taught through SICAP and traditional method 241.

Table 5.7: Post-test of the students’ achievement taught through SICAP and traditional method 242.

Table 5.8: The students’ achievement of pre-test and post-test taught through SICAP 242.
