ACKNOWLEDGEMENTS

My felicity knows no bounds in expressing my deep and profound sense of gratitude to my Research Supervisor, Dr C. Uma Shankar, Reader in Operations Research & Statistical Quality Control, Sri Krishna Devaraya University Post Graduate Centre, Kurnool, for his inspiring guidance. His constant suggestions during my Research Work have helped me in completing the thesis.

I am extremely grateful to Dr A. Anandachari, Professor in Operations Research & Statistical Quality Control, SKUPG CENTRE, Kurnool for his support and kind instructions which helped me in getting through the Research Work.

I am indeed grateful to Dr. P. J. Reddy, Principal of GPR Engg College for providing conducive environment to carry out Research work.

When I ask the question, "who are the people who have made it possible for this work to be completed?" I can see in my mind's eye, a host of teachers, colleagues and critics, whose
contributions in some way have led to contribute something to this work. Listing the names of all of them wouldn’t be possible, but it needs to be recorded that I am truly privileged and grateful to have been inspired and helped by them.

For the enthusiastic involvement and assistance of my senior associates Prof. Raghu Ramulu, Dr PV Reddy, N. Ramanjaneyulu K.L. Pillai and Sharma B.D., I am deeply grateful to them all.
