ACKNOWLEDGEMENTS

At the outset, I would like to express my deep gratitude to Prof. S.K. Chatterjee of Indian Institute of Science for his advice to take up the research line and infusing me with a lot of interest and enthusiasm.

I am thankful to Dr. S. Ramaseshan for giving me an opportunity to join the National Aeronautical Laboratory as a research fellow.

My thanks are due to the Council of Scientific and Industrial Research for the grant of a research fellowship for four years.

My sincere thanks are due to Dr. S.R. Valluri, the Director, National Aeronautical Laboratory for granting me the N.A.L. fellowship for the later years and for providing me with all the facilities for research work at N.A.L.

I express my sincere gratitude to Dr. Mrs. Kalyani Vijayan for her inspiring guidance and constant encouragement throughout this work. Her untiring help and friendly advice were responsible for completion of this thesis. The association with her has been an experience of immense value for me and I will always cherish its memories.

I am indebted to Dr. D.S. Sakegowda, my guide from the Bangalore University for his helpful nature for the guidance and encouragement given to me throughout the work.
My grateful thanks are due to Prof. K. N. Kuchela, Head of the Department of Physics, Bangalore University, for his interest, encouragement and helpful nature.

I wish to thank Prof. K. Venkatesan, Indian Institute of Science, Bangalore, for his valuable suggestions and advice.

I am highly indebted to my parents, Mr and Mrs B. B. Mulwad, to my sisters, brother and to my husband, Mr. G. G. Puranik for encouraging me to complete the thesis.

I wish to express my warm thanks to my nearest friend, Miss S. Ushadevi, Materials Science Division, N. A. L. for her constant and timely help in bringing the thesis to the final form.

My thanks are to Dr. S. Ramakumar, I. I. Sc., for helping me in modifying some of the computer programmes.

I am very much grateful to the staff of Graphic Arts Section, who helped me in getting some of the drawings for the thesis.

My sincere thanks are due to my colleagues Mr. A. Mani, who has helped me in the course of my experiments and to Dr. C. Balasingh for his help in completion of the thesis.
My thanks are due to Dr. A. K. Singh, Head of the Materials Science Division, N.A. L. for his constant encouragement.

I wish to thank Mr. G. K. Vijaya Kumar and K. V. Vanaja for neat typing and to Mr. M. J. Venugopal, I.I.Sc. who could readily prepare the drawings for the thesis.

I wish to thank people at ammonia printing section and the press of N.A. L., Bangalore for bringing the thesis to the present form.

I thank all the colleagues and friends who have helped me in one or the other way.

Smiles, encouraging words, timely advice and co-operation which made social and scientific life memorable at N.A. L. are gratefully acknowledged.

Vedavathi

Vedavathi, B.M.
