4.6 World Bank/ODA Aided Karnataka Social Forestry Project, 1983-1988
4.7 Social forestry raised under various land in Karnataka.
4.8 Plantation raised on various land in Karnataka
4.9 District Wise Plantations Raised Including Social Forestry During 987-88 and 1988-89 in Karnataka
4.10 Afforested Area in India and Karnataka
4.11 State-wise Distribution of Area Covered under Externally Funded Projects in India (1981-82 to 1992-93)
5.1 Distribution Households by Education
5.2 Distribution of Households by Main Occupation
5.3 Distribution of Households by Subsidiary Occupation
5.4 Income from Main Occupation
5.5 Income from Subsidiary Occupation
5.6 Crops grown – Paddy
5.7 Crops grown – Arecanut
5.8 Crops grown – Ragi
5.9 Crops grown – Maize
5.10 All Crops grown
5.11 Reduction/Increase in employment opportunities from social forestry
5.12 Number of Days spent in Social Forestry activities
5.13 Average Employment generated from Social Forestry Programme
5.14 Social Forestry Benefits as perceived by Farmers
5.15 Perception of Farmers about Benefits of Social Forestry
5.16 Other Benefits derived from Trees as Perceived by the Farmers
5.17 Accessibility and Utilization of Bamboos and Thorn from Social Forestry for fencing
5.18 Necessity of Social Forestry for Betterment of Surroundings
5.19 Opinions of Households on Need for Trees for Environmental Conservation
5.20 Improvements in the Environmental Degradation due to Afforestation 99
5.21 Opinions on the Effects of Deforestation on Crops 100
5.22 Type of Problems Faced due to Deforestation Activity 100
5.23 Number of times planted 101
5.24 Nature of Selling of Trees by the Households 101
5.25 Opinions on Tree Cultivation in Future 102
5.26 Reasons to Continue to Cultivate Trees in Future 103
5.27 Crop Loss due to Social Forestry 104
5.28 Effects on the Soil Productivity due to Trees 104
5.29 Land Improvement Practices as part of Social Forestry by Different Size Classes 105
5.30 Measures to Improve the Productivity of Land 106
5.31 Perceived Problems due to Depletion of Underground Water 107
5.32 Changes in the Value of Land due to Tree Plantation 107
5.33 Accessibility of Social forestry products by different people 108
5.34 Problems faced by Forest Officials from villages and Poachers 108
5.35 Environmental Degradation due to Deforestation as Perceived by Forest Officials 110
5.36 Opinions of Forest Officials on Ecological Balance due to Deforestation 110
5.37 Perception of Forest Officials about Prevention of Environmental Pollution due to Afforestation 111
5.38 Opinion about fund utilization 112
5.39 Problems from Villagers and Poachers by Forest Officials 113
5.40 Showing the NPV and BC Ratios of Social Forestry Programme in the Sample Taluks and Panchayats 116
5.41 Showing the NPV per Hectare of Social Forestry Programme 116
