LIST OF TABLES

1. Means and SD of the total sample on all the variables. 119
2. Means and SDs and t-ratios of individual and team sports coaches on all the variables. 120
3. Means, SDs and t-ratios of district and state level coaches on all the variables. 121
4. t-Ratio of extreme group analysis of 25 per cent high and low scores on self rated effectiveness of the total sample. 122
5. t-Ratios of extreme group analysis of 25 per cent high and low scores on athlete rated effectiveness. 123
6. Intercorrelation matrix for the total sample of coaches. 124
7. Intercorrelation matrix for the individual sports coaches. 125
8. Intercorrelation matrix for the team sports coaches. 126
9. Intercorrelation matrix for the district level coaches. 127
10. Intercorrelation matrix for the state level coaches. 128
11. Unrotated factor matrix for total sample of coaches. 129
12. Rotated factor matrix for total sample of coaches. 130
13. Unrotated factor matrix for individual sports coaches. 131
14. Rotated factor matrix for individual sports coaches. 132
15. Unrotated factor matrix for team sports coaches. 133
16. Rotated for the matrix for team sports coaches. 134
17. Unrotated factor matrix for district level coaches 135
18. Rotated factor matrix for district level coaches 136
19. Unrotated factor matrix for state level coaches 137
20. Rotated factor matrix for state level coaches 138
21. Multiple regression equation for the criterion variable self rated effectiveness (Total sample) 139

22. Multiple regression equation for the criterion variable self rated effectiveness (Individual sports coaches) 140

23. Multiple regression equation for the criterion variable self rated effectiveness (Team sports coaches) 141

24. Multiple regression equation for the criterion variable self rated effectiveness (State level coaches) 142

25. Multiple regression equation for the criterion variable athlete rated effectiveness (Total sample) 143

26. Multiple regression equation for the criterion variable athlete rated effectiveness (Individual sports coaches) 144

27. Multiple regression equation for the criterion variable athlete rated effectiveness (Team sports coaches) 145

28. Multiple regression equation for the criterion variable athlete rated effectiveness (State level coaches) 146
