ACKNOWLEDGEMENTS

It is with great pleasure and deep sense of gratitude that I acknowledge my special greatfulness to Prof. Ramesh Chand Kanwar and Dr. Naval Kishore Sharma under whose supervision and overall guidance the present work has been carried out. I am indebted to them for their able guidance, both in the field and the laboratory, untiring efforts and constant encouragement which made my stay worthwhile in the department.

Sincere thanks are due to Prof. A.K. Prasad Ex. Director and Chairman, C.A.S. in Geology, Panjab University, Chandigarh for extending necessary laboratory facilities.

The facility provided by Dr. Ravindra Kumar, Principal Investigator, DST Project. "Deformation Fabric" for photomicrography (Leitz orthoplan, MPS 46152 photo-automat) is gratefully acknowledged.

I am also thankful to Dr. V. Dadwal who was helpful in chemical analysis of rocks and minerals. Thanks are also due to Bimal Roy who was helpful and introduced the techniques used in mineral separation analysis. I also thank Dr. Naveen Chaudhary for his free discussion on different topics.

Sincere thanks are due to Hari Raj Dandi and Rajeshwar Banslu for their help and cooperation during the present work. Thanks are also due to Gulshan and Rakesh (Shaqul Graphics) who typed the manuscript patiently and to the technical staff of the department, laboratory and store for their cooperation.

I am indebted to my parents whose encouragement and moral support and their everlasting love and affection enabled me to carry out the present work.

I am also thankful to the Ministry of Higher Education and Culture, Government of Islamic Republic of Iran, Geological Survey of Iran and Dr. Mola Negad, Head, student section at the Embassy of I.R. Iran, New Delhi for their encouragement and cooperation.

Lastly, it is difficult to express in words my wife’s (Sorour Mortezaei Nejad) contribution and sacrifices to the completion of the present work.

Sahami
