ACKNOWLEDGEMENTS

I have great pleasure in expressing my deep sense of gratitude to my esteemed supervisor Dr. H. R. Pajni, M.Sc., Ph.D. (Pb.), F.R.E.S., F.E.S.I., Professor of Entomology, Department of Zoology, Panjab University, Chandigarh, for initiating my interest in the subject, for his valuable suggestions and helpful guidance during the course of the present investigations. I am extremely indebted to him for his constant encouragement and constructive criticism which gave me many useful ideas and promoted my work in many ways.

I sincerely thank the Chairman, Zoology Department, Panjab University, Chandigarh for providing me all the necessary facilities in the laboratory.

I take this opportunity to extend my heartfelt thanks to my parents whose constant affectionate encouragement has been an absolute source of inspiration throughout.

I also warmly acknowledge the help rendered by all my friends for the compilation of the present work.

The US PL-480 scheme has been kind enough to provide me the necessary financial support in the form of a Senior Research Fellowship, which enabled me to complete the present course of study.
