**Acknowledgements**

I do not find adequate words to express my gratitude to my revered teacher, Dr. S.P. Vij, Botany Department, Panjab University, Chandigarh for introducing me to the fascinating world of Orchids. His tireless efforts, able guidance, constructive criticism and encouragement enabled me to reach the present stage. He has been very kind to place his unpublished data and personal research literature at my disposal, which proved helpful in synthesizing my ideas in the present manuscript.

I am thankful to Prof. S.C. Verma, Botany Department, Panjab University, Chandigarh, for providing the necessary research facilities during the tenure of this work.

I am really indebted to my parents and especially to my brother for their affections, kind help and encouragement without which this thesis would not have taken the present shape.

I owe my sincere thanks to Mrs. Usha Vij and Mrs. Sudershan Sood for their affections and encouragement.

I must acknowledge with thanks the permission from Forest Department, Govts. of Sikkim and West Bengal for the collection of orchids. I cannot let pass the opportunity to thank H/s Oberoi Construction and H/s Sethi & family, Gangtok for their hospitality and kind cooperation during my stay in Sikkim.

I am truly appreciative of the help extended to me by my research colleagues, especially Dr. (Miss) Madhu Sharma, Miz. Renu Sood, Anita Mehta, Sarita Munshi, Sushma, Narinder and Paramjit, Messers Anil Sood & Narasimham.

I shall be failing in my duty, if I do not thank my friend Dr. J.S. Thakur, for his valuable help whenever asked for.

The financial assistance from University Grants Commission, Vice-Chancellor, P.U., Chandigarh and Department of Atomic Energy is gratefully acknowledged.

(NAVEEDEEP SHEKHAR)
