ACKNOWLEDGEMENTS

Moving along the long corridor of life, I came across so many good people, who conscientiously moulded my destiny. I cannot easily mention all of them, however, I must express my gratitude to those without whose help, it would have been difficult for me to fulfil my ambition. On the paths, that lead to bright avenues, a specific doorway was opened by my guide Dr. (Ms.) Pratibha Nagpal, Department of English, Panjab University, Chandigarh, who generously spent her valuable time and talent to brighten my future. I tender my warmest thanks to her for her expert and mature advise in the selection of topic, crystallization of the work, critical and inspiring guidance and constant follow-up and encouragement during the study and above all her humane and benevolent disposition throughout our association.

I accord my cordial regards to my loving parents for bringing me up in an atmosphere of love and confidence and infusing in me the spirit to face the challenges of life bravely. Words are not eloquent enough to express my thanks to them. It is only with their co-operation that I am able to complete my assignment.

It is indeed a matter of pleasure to admire my husband for his wholehearted encouragement, good wishes and his help at the time, while I was fully engaged in writing and compilation work. Without his co-operation it would not have been easy for me to accomplish the goal.

My cordial thanks are also due to Prof. Darshan Singh, A.S.College, Khanna for his helping attitude and valuable guidance at various stages of this study.

I shall be failing in my duty, if I do not express my thanks to S. Dildar Singh, Senior Stenographer, Department of Horticulture, PAU, Ludhiana for meticulous typing of the thesis inspite of his ill health at the final stage.

All these thanks are, however, only a fraction of what is due to Almighty, who granted me an opportunity and mettle to make successful accomplishment of my work.

(GURSHARANJIT BAINS)
