## CONTENTS

**PUBLICATIONS** 01  
**PREFACE** 03  
**NOTATIONS AND SYMBOLS** 12

### 1 INTRODUCTION AND PRELIMINARIES

1.1 Finsler space  
1.2 Geometric objects of the Finsler space  
1.3 Finsler connections  
1.4 Curvature and Torsion tensors of Finsler connections  
1.5 Finsler spaces with \((\alpha, \beta)\)-metric  
1.6 Types of \((\alpha, \beta)\)-metric  
1.7 Projective change on Finsler spaces  
1.8 Conformal change on Finsler spaces  
1.9 Locally dually flat and locally projectively flat Finsler spaces  
1.10 Special Finsler spaces

### 2 PROJECTIVE CHANGE BETWEEN TWO FINSLER SPACES WITH \((\alpha, \beta)\)-METRIC

2.1 Introduction  
2.2 Douglas tensor of a general \((\alpha, \beta)\)-metric  
2.3 Projective change between two Finsler spaces with \((\alpha, \beta)\)-metric  
2.4 Projective change between Randers metric and special \((\alpha, \beta)\)-metric  
2.5 Special curvature properties of two \((\alpha, \beta)\)-metrics  
2.6 Projective change between Matsumoto metric and Randers metric  
2.7 Conclusion

### 3 CONFORMAL CHANGE OF SPECIAL FINSLER SPACE WITH \((\alpha, \beta)\)-METRIC

3.1 Introduction  
3.2 The Condition to be a Douglas space  
3.3 Douglas space with special metric \(L = \alpha - \frac{\beta^2}{\alpha} + \beta\)  
3.4 Berwald space with special metric \(L = \alpha - \frac{\beta^2}{\alpha} + \beta\)  
3.5 Conformal change of Douglas space with the metric \(L = \alpha - \frac{\beta^2}{\alpha} + \beta\)  
3.6 Conformally Berwald Finsler space  
3.7 Conclusion
4 GEOMETRY OF LOCALLY DUALLY FLAT AND LOCALLY PROJECTIVELY FLAT FINSLER SPACE WITH \((\alpha, \beta)\)-METRIC

4.1 Introduction 74
4.2 Locally dually flat special \((\alpha, \beta)\)-metric 75
4.3 Locally dually flatness of \(L^2 = 2\alpha\beta\) 79
4.4 Locally projectively flat \(L = c_1\alpha + c_2\beta + \frac{\alpha^2}{\beta}\) 83
4.5 Locally projectively flat \(L = \alpha - \frac{\beta^2}{\alpha} + \beta\) 86
4.6 Conclusion 89

5 THE STUDY OF BERWALD SPACE WITH \((\alpha, \beta)\)-METRIC

5.1 Introduction 91
5.2 Berwald space with special \((\alpha, \beta)\)-metric 92
5.3 Berwald connection with respect to the special \((\alpha, \beta)\)-metric 95
5.4 Homogeneous spaces 99
5.5 Mean Berwald curvature of homogeneous Kropina metric 102
5.6 Mean Berwald curvature of homogeneous generalised Kropina metric 105
5.7 Conclusion 109

6 STUDY OF RICCI FLOW EQUATIONS ON SPECIAL FINSLER SPACES

6.1 Introduction 112
6.2 Ricci flow equation 112
6.3 Un-normal Ricci flow equation on \(C_2\)-like space with \((\alpha, \beta)\)-metrics 115
6.4 Normal Ricci flow equation on \(C_2\)-like space with \((\alpha, \beta)\)-metrics 119
6.5 Conclusion 121
