ACKNOWLEDGEMENTS

I would like to take this opportunity to place on record my deep sense of gratitude to Dr. S. Ravichandra Reddy, Reader, Department of Zoology, Bangalore University, Bangalore 560 056, for the valuable guidance extended to me during the course of this research project. His constant encouragement, sagacious advice and constructive discussions were of utmost importance for the completion of this research project.

I owe a debt of gratitude to Dr. Katre Shakantala, Reader, Department of Zoology, Bangalore University, Bangalore 560 056, for the keen interest evidenced by her during every stage of my research work and for her invaluable suggestions and useful discussions.

My sincere thanks are due to Prof. B.N. Chowdiah, Head of the Department of Zoology, Bangalore University, Bangalore 560 056, for the research facilities provided as well as for the encouragement extended to me. I would also like to thank Dr. A.R. Kasturi Bai, Retired Head of the Department of Zoology for her encouragement during the initial period of my work.

I am deeply grateful to Dr. V.S. Ranganathan, Reader, Dept. of Zoology, Bangalore University, Bangalore 560 056 and to Dr. D. Sivaramakrishna, Reader, Dept. of Botany, Bangalore University, Bangalore 560 056 for having served on my doctoral committee and for the constructive suggestions offered by them.

Sincere thanks are due to my mother Dr. K. Belliyappa for her constant support and patience. Without her help this work would not have been possible.

It is with gratitude that I recall the cheerful spirit with which my colleagues of the Aqua Laboratory Bangalore extended their willing co-operation and help during the entire period of my research work.
I am deeply grateful to Mr. Venkataramanappa for the trouble that he took to procure the required fish and to Mr. A.N. Narayan for the meticulous preparation of the diagrams.

Special thanks are due to Mr. S.S. Holle and to Ms. P.N. Geetha of Business & Industrial Services, for their skilful typing of this thesis. Without their patience and hard work this thesis would not have taken its present shape.

Award of Research Fellowships by the Council for Scientific and Industrial New Delhi, is gratefully acknowledged.

Geetha Belliyappa
