3.6. Fauna 34-34
3.7. Study Period 34-34
3.8. Methods of study 34-34
3.8.1. Diversity of Frugivorous birds 34-35
   3.8.1.1. Data analysis 35-36
3.8.2. Diet composition during breeding and non-breeding seasons 37-37
   3.8.2.1. Feeding records (from transact walks and opportunistic sightings) 37-37
   3.8.2.2. Fruit tree vigilance 37-38
   3.8.2.3. Diet composition from below perch and roost trees (Brown hornbill) 38-38
   3.8.2.4. Fruit characteristics 38-38
   3.8.2.5. Phenology of fruit tree species 38-38
   3.8.2.6. Data analysis 39-39
3.8.3. Habitat preferences of Brown hornbill and Yellow legged Green pigeon 39-39
   3.8.3.1. Data analysis 39-39
3.8.4. Nest-site characteristics of study species 40-40
   3.8.4.1. Nest searches and nesting site characteristics 40-41
   3.8.4.2. Potential nest tree species and availability 41-41
   3.8.4.3. Nesting status, attempts and success 41-41
   3.8.4.4. Data analysis 41-42
3.8.5. Roost-site characteristics of the two study species 43-43
   3.8.5.1. Roost-site characteristics 43-43
   3.8.5.2. Roost counts 43-43
   3.8.5.3. Potential roost tree species and availability 44-44
   3.8.5.4. Evening flight to the roosts 44-44
   3.8.5.5. Data analysis 44-44

CHAPTER- IV: RESULTS

4.1. Diversity of frugivorous birds 45-45
   4.1.1. Species assemblages 45-45
   4.1.2. Diversity indices 46-46
   4.1.2.1. Diversity Variations at the sampled Transects 46-50
4.1.2.2. Diversity Variations at different habitat categories 50-52
4.1.3. Geographical distribution 52-57

4.2. Diet composition during breeding and non-breeding seasons 62-62
4.2.1. Overall diet composition in the breeding season 62-64
4.2.2. Diet composition and resource partitioning during breeding season: data from feeding records 65-66
4.2.3. Overall diet composition in the non-breeding season 66-69
4.2.4. Diet composition and resource partitioning during non-breeding season: data from feeding records 70-72
4.2.5. Monthly availability of key fruiting trees 72-75

4.3. Habitat preference of Brown hornbill and Yellow-legged Green-pigeon 78-78
4.3.1. Habitat preference of Brown hornbill: data from encounter records during breeding and non-breeding seasons 78-79
4.3.2. Habitat preference of Yellow-legged Green-pigeon: data from encounter records during breeding and non-breeding seasons 80-81
4.3.3. Canopy level preference of Brown hornbill & Yellow-legged Green-pigeon: data from encounter records during breeding and non-breeding seasons 82-82

4.4. Nest-site characteristics of Brown hornbill and Yellow-legged Green-pigeon 83-83
4.4.1. Nest-site characteristics of Brown hornbill 83-84
4.4.1.1. Principal Component Analysis 84-87
4.4.1.2. Potential nest tree species and availability of Brown hornbill 88-89
4.4.1.3. Potential nest cavity availability for Brown hornbill 90-90
4.4.1.4. Mode of cavity formation 90-90
4.4.1.5. Nest competitors and predators 90-91
4.4.1.6. Nesting attempts and success 91-92
4. 4. 2. Nest site characteristics of Yellow-legged Green-pigeon 93-94
4. 4. 2. 1. Principal Component Analysis 95-97
4. 4. 2. 2. Potential nest tree species and availability of Yellow-legged Green-pigeon 98-99
4. 4. 2. 3. Nest competitors and predators 100-100
4. 4. 2. 4. Nesting attempts and success 100 -101

4.5. Roost-site characteristics of Brown hornbill and Yellow-legged Green-pigeon 104-104
4. 5. 1. Roost-site characteristic of Brown hornbill 104-105
4. 5. 2. Roost-site characteristics of Yellow-legged Green-pigeon 105-107
4. 5. 3. Potential roost trees of Brown hornbill and Yellow-legged Green-pigeon 107-108
4. 5. 5. Roost arrival times 111-112

CHAPTER -V: DISCUSSIONS
5.1. Discussions 114-114
5. 1. 1. Diversity of Frugivorous birds 114-116
5. 1. 2. Diet composition of Brown hornbill and Yellow-legged Green-pigeon 117-117
5. 1. 2. 1. Diet composition in the breeding season 117-119
5. 1. 2. 2. Diet composition in the non- breeding season 120-122
5. 1. 2. 3. Fruit resource partitioning and availability of key fruiting trees 122-124
5. 1. 3. Habitat preferences of Brown hornbill and Yellow-legged Green-pigeon 124-126
5. 1. 4. Nest site characteristics of Brown hornbill and Yellow-legged Green-pigeon 126-126
5. 1. 4. 1. Nest site characteristics of Brown hornbill 125-128
