ACKNOWLEDGEMENT

I wish to express my deep sense of gratitude to Dr. M. Nagaraj, Vice-Chancellor, Gulbarga University, Gulbarga (formerly Professor and Head of the Botany Department, Bangalore University, Bangalore) for suggesting this problem and guiding throughout the course of work.

I am also thankful to Dr. A. Sheriff, Principal, Al-Ameen College, Bangalore, for his encouragement and help given during his tenure as Head of the Botany Department, Bangalore University, Bangalore.

My thanks are due to the authorities of the Bangalore University, Bangalore for the award of teacher fellowship under the Faculty Improvement Programme of the Bangalore University.

The Director of Agriculture, Karnataka State, was kind enough to make arrangements for the collection of soil samples from all over the Bangalore district, and to permit me to collect the soil samples from the experimental plots of the Ramakrishnapuram School Farm. I express my thanks to him.

Thanks are due to my colleague Dr. S.B. Sullia for timely suggestions and discussions which helped me to complete this project in a methodical way. I am also thankful to my other colleagues in the Department who have rendered assistance and encouragement in my work.

Shri B.G. Kulkarni has helped me in making the diagrams for this work, Shri Srinivas has neatly typed the thesis in a short time and Shri Subba Rao of Atreya Printers, Jayanagar, Bangalore has rendered all assistance.
in printing and binding work of the thesis. So I extend them all my thanks for their help.

I am grateful to Dr. S. Shantharam, Kansas State University, U.S.A. for providing literature abstracts through the computerised Information Retrieval Service of his university.

I am thankful to the Head of the Botany Department, Bangalore University, Bangalore for the facilities provided to conduct and complete this project.

Lastly, I have to express gratitude to all the members of my family and friends for their support and encouragement in several ways to fulfil this task.
DEDICATED
TO
MY PARENTS
