TABLES

3.1 Classification of Geographical area in Anantapur district taluk-wise (1988-89) 99
3.2 Progress of Rural electrification in Anantapur district (as on 31-3-1983) 102
3.3 Power consumption in Anantapur district 103
3.4 Bio-gas plants in Anantapur district (taluk-wise) 1982-1989 104
4.1 Sample villages important population characteristics 111
4.2 Rainfall recorded at nearest centre of the sample villages 113
4.3 Land use pattern in sample villages 115
4.4 Caste-wise distribution of sample households 117
4.5 Categorywise distribution of sample beneficiaries 118
4.6 Age particulars of heads of the sample beneficiaries 119
4.7 Distribution of sample households according to literacy level of head of the households 120
4.8 Distribution of sample households according to type of family 121
4.9 Family size of the Bio-gas plant beneficiaries 122
4.10 Distribution of sample households according to their occupation 123
4.11. Land particulars of households and size of the Bio-gas plants (Janata and KVIC)  
4.12 Cropping pattern of sample households  
4.13 Income level of sample beneficiary households.  
4.14 Live-stock population of beneficiaries  
5.1 Working condition of Bio-gas plants  
5.2 The rate of failure of Bio-gas plants  
5.3 Duration of functioning and non-functioning of the Bio-gas plants.  
5.4 Commissioning and working condition of Bio-gas plants.  
5.5 Changes in live-stock population and working condition of Bio-gas plants.  
5.6 Changes in live-stock population per plant (Calculated through standard measure)  
5.7 Source of finance for the plant and working condition.  
5.8 Adequacy of Bio-gas  
5.9 Use of additional fuel.  
5.10 Personnel at work and working of Bio-gas Plants  
5.11 Type of repairs carried out Bio-gas plants  
5.12 Falling gas production in winter  
5.13 Reasons for non-completion of Bio-gas plants.
