ACKNOWLEDGEMENTS

I express my heart-felt humble gratitude to my revered teacher, mentor, philosopher, source of inspiration and Research Supervisor Dr. K. Chowdoji Rao, Reader in Polymer Science and Technology, Sri Krishnadevaraya University, Anantapur for his perceptive observation, penetrating cordial comments, stimulating discussion, insightful suggestions, personal care which have created confidence in me throughout the progress of the work and suggesting me this interesting topic. Without his guidance this work would not have taken this shape. I am grateful to him for exposing me to the new ideas and making me aware of the modern developments in the subject. I am very much beholden to him for affectionate interest in me even with his busy engagements.

I am thankful to Dr. A. Varadarajulu, Professor and Head, Department of Polymer Science and Technology, SK University for providing me the necessary facilities to carry out my research work and his encouragement and cooperation in my research work.

I am grateful to express my sincere thanks to Dr. (Mrs.) M.C.S. Subha, Reader, Department of Chemistry, SK University for her constant enquiry about the work,
valuable suggestions, proper guidance, critical appreciation of various aspects of work at every stage which have mostly helped me throughout the period of my research work.

I express my sincere thanks to Prof. A. Kameswara Rao, Dr. S. Venkata Naidu, Dr. N. Subbarami Reddy and Dr. K. Mohana Raju, Department of Polymer Science and Technology, SK University for their helping hand at all times of my need.

My most sincere and heartful thanks to my parents for their moral support, inspiration and encouragement that have been the very stimulus for my development.

I affectionately acknowledge the help and encouragement that I received from my wife and family members who have been the source of constant help and encouragement during the course of my research work.

I am thankful to the authorities of Sri Krishnadevaraya University, Anantapur for providing necessary facilities to pursue my research work.

Finally I thank one and all who directly and indirectly helped in completion of this dissertation.

A. SADASIVA RAO.
