List of papers communicated:

1. Miscibility studies of Hydroxy Ethyl Cellulose/Poly Vinyl Pyrrolidone in dilute solutions and solid state. (Journal of Applied Polymer Science)

2. Thermal, structural properties of Hydroxy Ethyl Cellulose/Poly Ethylene Glycol blends. (International journal of carbohydrate chemistry)

3. Miscibility studies in Hydroxy Ethyl Cellulose/Poly vinyl alcohol binary systems in aqueous and solid state. (International journal of polymeric materials)

List of papers presented at seminars/conferences
